1984-1994

Arguments end in deadlock with Engin Günana excellent education and curriculum vitae at University Stuttgart at Faculty Aerospace-Technology with Prof. Prof. Prof. John H. Agyris and best connection and cooperation with Mathematic-Institute, Informatic-Institute, Linguistic-Institute foundation and Artificial Intelligence (AI) Cube, Internet, Google modules, Google voice control, Google maps, Google translation, Google navigation, Google speech to text, Google text to speech, Google search algorithms.

Theory Artificial Intelligence (AI) and Cube

1984-1994

Foundation at 1984-1986, discretizing of language, destruction sentence, mathematical numerical and physical energy methods coupled with Matrix operation and complex algorithm formulation in mathematical series to couple language in sentences. Analytic language function and analytic geometry for exact responses relations to implantation variability and humanity coupled with vector analysis and complex numerical methods. Less exact methods through numerical approximation, priority in rows and columns with power function. Exact solution with FEM transformation and coupling methods with linear equation system. Transformations methods with approximation and priority and numerical statistic for less exact solutions, element generator with couple algorithm, language libraries, worldwide application and discretizing with same discretizing method and generated element libraries best successful neural network.

The reason of Reality-TV and Get-Response Management Function installation 2000/2012

Time Map of IT - Technology and Business

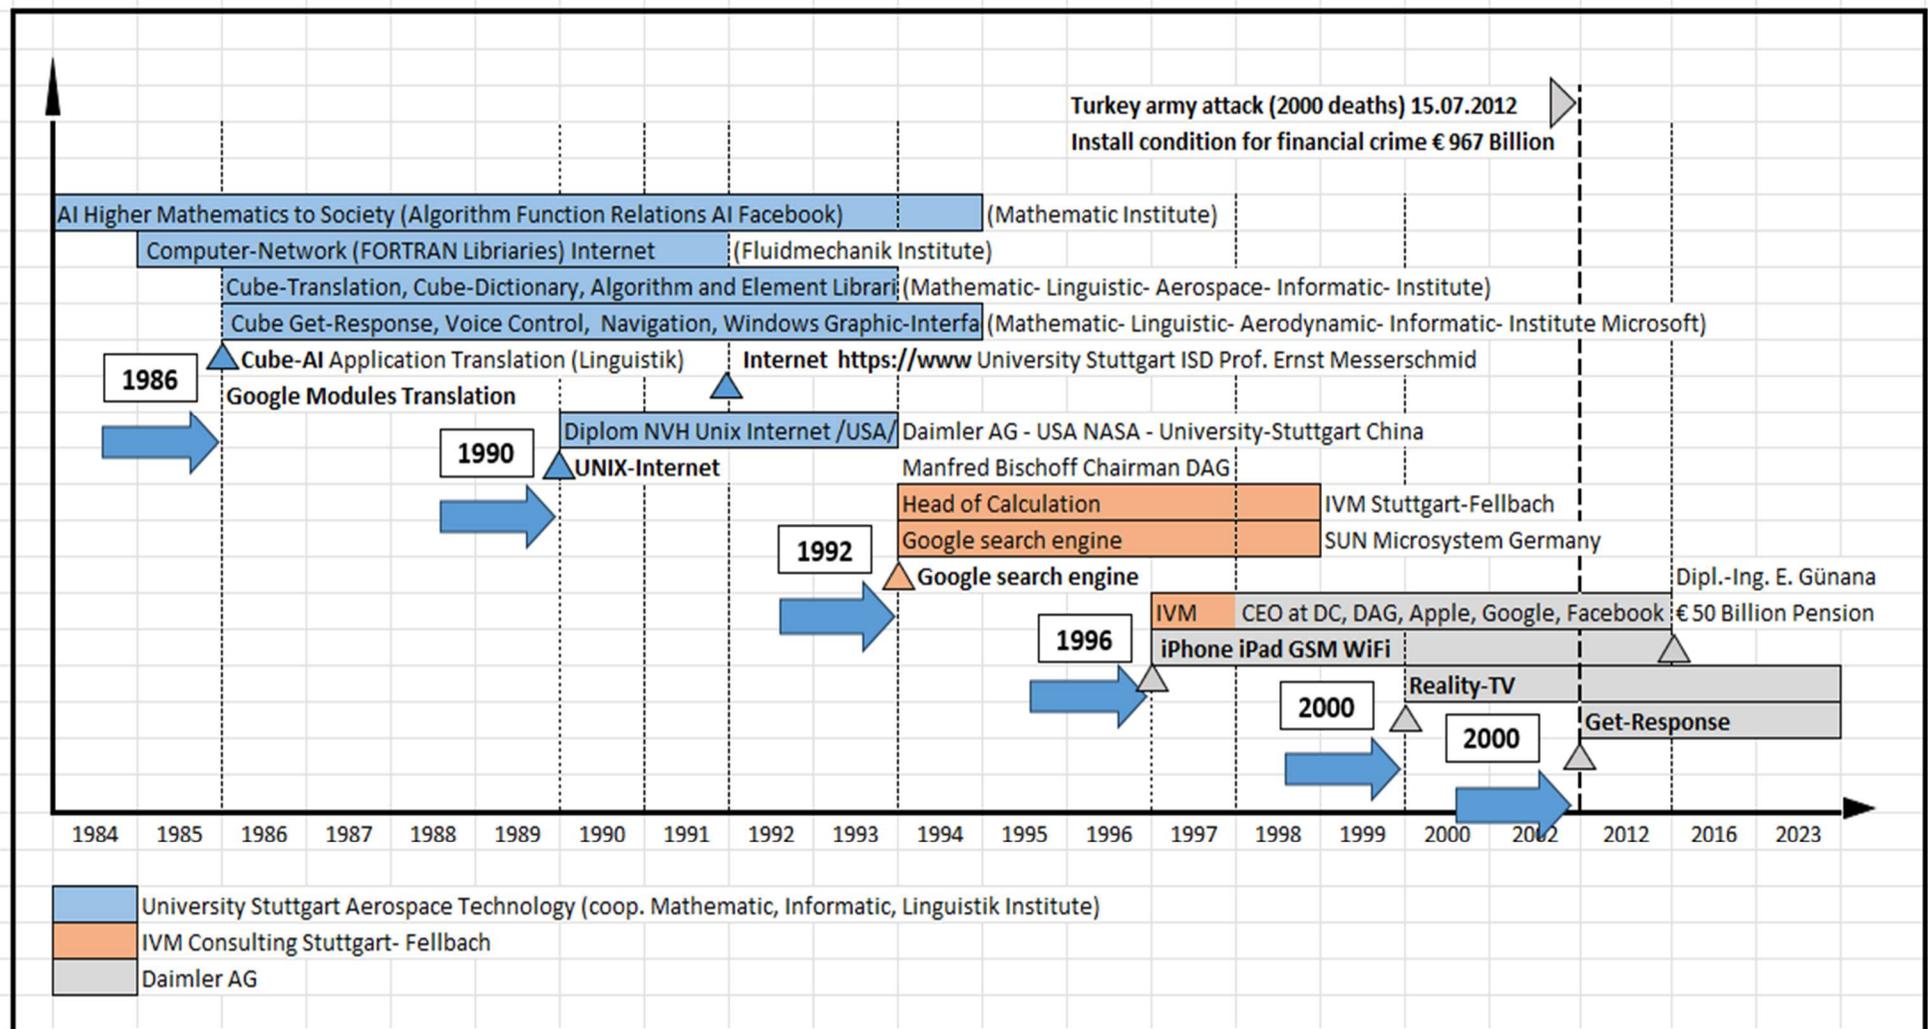

Chart 1: Timeline IT-Foundations, co-chairman and co-CEO job

Framework Homepage <https://www.eq2-tech.com/>

Homepage <https://www.eq2-tech.com/> describe Engin Günana IT-Foundations: Artificial Intelligence, Cube, Internet, Google modules (translation navigation, maps, voice command search engine), iPhone, iPad, GSM, Wi-Fi, Facebook and YouTube during 1984-1994 the result of co-chairman and co-CEO function at DaimlerChrysler AG, Daimler AG, Apple Inc. Google Inc. (Alphabet Inc.) and Facebook Inc. (Meta Technology Inc.) during 1985-2012 and furthermore Reality-TV and Get-Response Management Function during 2000-2012

The next step after Cube Internet and Google, iPhone and passenger car development. From co-chairman and co-CEO at Apple Inc. to co-chairman and Co-CEO at Daimler AG and DaimlerChrysler AG as a result of founder developer and maker.

Engin Günana development DaimlerChrysler AG from boring company to leadership for mobility. New business strategy new products, developments and production coupled with new design and B2B. The result 2012 best earning in history since 1926, 10 billion EUR, substantial 2011-2015 in sum 50 billion EUR. In shadow and under Berlin Ankara BND and MIT spying since 1986. Since AI-Foundation at University Stuttgart with students from Aerospace Technology Institute Statik and Dynamic, Mathematic Institute, Fluid mechanic Institute Informatic Institute and Linguistic Institute in 1986. The reason successful IT-Foundation: Artificial Intelligence 1986, Google 1986-1998, Internet 1984-1998.

The next IT-revolution, foundation iPhone, iPad, Wi-Fi and GSM in 1998 at DaimlerChrysler AG with supplier Apple Inc. and Steve Jobs. In background Turkish and German national Intelligence agency BND and MIT, chief Hakan Fidan was sent 2001 to Germany and get a course in rapid apply (11.09.2001) spy over many years our activity at Stuttgart University.

At 14.08.2001 AKP was foundation with Leadership President Recep (give iPhone) Tayyip (horse Internet) Erdogan (no-manager) with the target to steal my IT-foundation. President Erdogan encryption name content the target: Recep (give iPhone) Tayyip (horse Internet) Erdogan (no manager). Germany double strategy foundation AKP steal E. Günana IT-Foundation AI, Google, Internet, iPhone, iPad, GSM, Wi-Fi, attack with Al Qaida USA finance WTC (the real reason of AKP foundation at 14.08.2001) with Recep Tayyip Erdoğan and 11 million AKP member regarding Berlin-Wannsee protocol with 11 million Jews death and the encryption message Recep (Re-iPhone) Ta yy-IP (at yes yes iPhone ~ through iPhone away) E rd o gan (Engin red) and son Bil-al (Google search engine).

Former Turkish National Agency chief Hakan Fidan, former Economy Minister Mustafa Varank and President Erdogan 1. Economic and Finance Advisor Bülent Yiğit came unexpected and without any invitation at 2011 to residence of Engin Günana at Winnenden make an offer as economy minister. Engin Günana declining offers from Daimler AG to director E1 position and Turkey Economy Minister.

The beginning and end of Engin Günana physical professional careers as regular co-chairman. German and Turkish national government kidnapped Engin Günana operate and installed secret and illegal Get-Response Management Function and use Engin Günana illegal as co-chairman with global economy condition as the next generation of AI with Get-Response Management Function in 2011.

Engin Günana get through same way a Reality-TV Function in 2000 with local management condition at Daimler AG board and Apple Inc. board. Get-Response Management Function in 2012 with global economy finance and management condition with the target to use Engin Günana furthermore for government finance and economy with best education experience and management competence.

With the most important target: Prevent government expenditures, increase economy and finance push innovation, strategy and business with global macroeconomic conditions through constraint contraction

working economy and finance condition, against violation of intellectual property rights and copyrights against democratic rules, against freedom. The reason of bankruptcy and bad economy and finance condition. European Union make agreement with Berlin and Ankara pay monthly Cost payments to Turkish government to 11 million unemployed AKP member who are free to build an environment to Engin Günana with the target destroy credibility to decouple co-chairman function visual with Reality-TV Function but use furthermore secret Get-Response Management Function

The difference between 20th and 21th IT Foundation

Artificial Intelligence, Cube, Matrix, String Theory, FEM to speech, Algorithm, permutation, speech splines, iPhone, iPad, GSM, Wi-Fi. IT-Foundation the reason of secret and illegal transportation operation and installing spyware technology in head, in contrary to laws against theft of intellectual property, copy rights and personal rights. An illegal secret agreement from Brussel Ankara Berlin allows EU to use Dipl.-Ing. E. Günana free but 224 million EU households should pay fees to Turkish government. Even though Dipl.-Ing. E. Günana education, knowledge, competence, management experience coupled with Reality-TV and Get-Response to Turkey's and Germany state and economy increase more than 30.000 billion USD capital and save in same range over a period expenditure.

European Union (EU) use legal Engin Günana with an agreement with 30 EUR per month per EU household, but Turkish government occupied Turkish democracy 2012 govern 2012-2016 with dictatorship rules steal E. Günana 80,640 billion EUR per year meanwhile Turkish government destroy Dipl.-Ing. E. Günana professional career and credibility as founder of IT-Technology and co-CEO at DaimlerChrysler AG, Apple Inc. Google Inc. (Alphabet Inc.) Facebook Inc. (Meta Technologies Inc.)

More than this, Turkey steal in cooperation with Berlin and Ankara through with army cup at 15.07. 2012, 50 billion EUR from Daimler AG, 50 billion EUR E. Günana lifetime merit to protect Daimler AG from bankruptcy during 1998-2007. Not at all, Turkey steal EU-TV fees payments about 1048 billion EUR (2012-2023). EU-TV fees payments for Reality-TV and Get-Response Management Function services.

Brussel, Berlin and Ankara use founder of AI, Cube, Internet, Google, Unix, iPhone, iPad, GSM, Wi-Fi and Get-Response Management Function free against theft of intellectual property, owner rights, personal rights. Because they didn't fulfil the agreement of payments since 2012, since EU agreement with E. Günana in 2012.

Berlin founded Fascist Hitler Party AKP at 14.08.2001, attack at 11.09.2001 World Trade Centre with AKP and Terror Groups, install Recep Tayyip Erdogan as Hitler II and asserts him as iPhone Internet and Wi-Fi founder and govern Turkey with dictatorship to steal Dipl.-Ing. E. Günana owner rights as 5 times co-CEO and as founder of IT-Technology, steal Dipl.-Ing. E. Günana lifetime merit and pension about 50 billion EUR from Daimler AG 2016 and in additional 967 billion EUR EU Reality-TV and Get-Response payments during 2012-2023.

German National Security Agency BND and Turkey National Security Agency MIT prevent Engin Günana claims from IT-Foundation AI, Cube, Google, Internet, Unix, iPhone, iPad, Wi-Fi and professional career as co-CEO at DaimlerChrysler AG and Daimler AG after 2011 with an extortion program during 2012-2023 and steal immediately Dipl. Ing. E. Günana 50 billion EUR lifetime merit and pension at 2016 with 11 million armed AKP army, an issue for Interpol.

Dictator Erdogan AKP and MIT installed at 15.07.2012 dictatorship attack and destroy Dipl.-Ing. E. Günana professional career with support of AKP army, Turkey's infrastructure, Turkey's media, 600 politicians. Dictator Erdogan AKP and MIT attack and killed in 2012, 2000 Turkish citizens, decoupled 3 million manager justice democracy constitute monarch (dictatorship) and send 2012, 11 million AKP protection squadron (Hitlers SS) to pension to mob insult and destroy with mass E. Günana level from 5 times co-CEO to worker level.

More than this dictator Erdogan occupied Turkish free Media, Erdogan and Family control Turkish media Internet news advertising channels for encrypted mobbing regarding E. Günana IT-Technology FEM AI CUBE and send at same time INPUT for Reality-TV and Get-Response Management Function. Dictator Erdogan use AKP infrastructure of 11 million free AKP members in pension and Turkish Media for mobbing and Input signal interrupt all external services nobody in Turkey and Çayırova are allowed give E. Günana paid services and fulfil orders cut services, interrupt taxi transportation with increasing taxi prices to 300%, closed owner shops, terminate discussion partners from job organized from the greatest terrorist from Middel East, Recep Tayyip Erdoğan and Hakan Fidan.

CO-CEO and Co-chairman at DaimlerChrysler AG and Daimler AG

Experience at IT-Foundation and development manager in IT-Projects: Artificial Intelligence, Internet, cube, matrix and string theory with speech discretization and coupling with orthogonal condensation methods, fast Forward Fourier transformation for voice recognition with Intercultural competence and partners integration in Google (module) between 1984-1992. Connect Internet with international project and partners to USA and China and finally iPhone project 1997 with Apple Inc. was the initial reflection of Daimler AG Chrysler Inc. merger 1998.

IT-foundations, project leadership in foundations: Artificial Intelligence (AI), Cube, Internet, AI-translation, AI-voice commands, AI-voice control, AI-Maps, GSM 1G 2G mobile Internet, Internet rollout starting with computer network at University Stuttgart rollout in Germany with Universities and supercomputing calculation center. Rollout 1992 calculation center Stuttgart University with USA/NASA, parallel rollout in China through University Stuttgart Institute for Nuclear Energy IKE, rollout 1990-1992 in USA and China.

Initial reflection for international cooperation from Daimler AG and USA started already in 1994 at IVM-Consulting Stuttgart-Fellbach, with existing contact to US partner Sergey Brin and Larry Page and Google Inc. Second contact with USA started in 1996 with a few partners among other things with Apple Inc. regarding multi device for project leader and manager.

iPhone project was a parallel external project with Apple Inc. and Steve Jobs during 1997-2012 in agreement with Daimler AG as second job without ant interface to Daimler AG development. Steve Jobs was acquired from Next company to Apple Inc. and started as chief project engineer at Apple Inc. for iPhone project with Engin Günana (second job without Daimler AG participation) the beginning of first contacts with US-passenger car companies end with a merger acquisition of Chrysler Inc. in 1998.

Chairman Prof. Jürgen Schremp and Board of member Daimler AG ordered Engin Günana to co-chairman position according supervisor chairman Manfred Bischof Daimler AG proposal during graduation at department Dr. Kern 1992 after DaimlerChrysler AG merger 1998 get a cold shower at New York stock exchange lost more than 60%. Constrained time condition was the result of different contract and agreement regulation than classic written variant.

Helmut Michel E4 and Hans Frey E3 was ordered from Board pf management and authorized for matching. Agreement first and second earning to protect substantial profit. Between 2-3 days encounter meetings with director Leopold Mikulic E1 and CEO Dr. Dieter Zetsche and chairman Prof. Dr. Schremp for accepting. Prof. Dr. Schremp/Daimler AG and chairman Robert Eaton/Chrysler Inc. pushed Dipl.-Ing. Engin Günana to co-chairman job, this was the next logical step from Daimler AG after supervisor chairman Dr. Manfred Bischof proposal. Therefore, chairman Robert Eaton contract end in end of 1999.

Co-chairman Engin Günana introduce new program for manager qualifying, manager agreement, manager salary, manager conditions, and manager meetings proved and evaluated with meetings from Prof. Dr. Schremp/Daimler AG and chairman Robert Eaton/Chrysler Inc Dr. D. Zetsche and directors at Daimler AG. Easy examples were handshake and head nodding. New proposal and guideline of Engin Günana management conditions was accepted and realized in 1999 as new capture of risk management after DaimlerChrysler AG shares felt at New York stock exchange extremely

Agreement and contract with partner DaimlerChrysler AG, Prof. Jürgen Schremp, Robert James Eaton, evident Dr. Dieter Zetsche, Dr. Leopold Mikulic (E1), Dr. Joachim Schommers (E2), Peter Lückert (E2), Dr. Hans Frey (E3), Hans Michel (E4) with the target to protect DaimlerChrysler AG from insolvency and push to substantial profit with 10% profit after DaimlerChrysler AG shares lost in 1999 and 2000 extremely. First two earnings of Daimler AG as substantial protection of potential growing own Dipl.-Ing. Engin Günana. After Daimler AG divorce from Chrysler in 2007 and Barrack Obamas Real Estate and Financial crises in 2009.

Reasons for Co-Chairman and Co-CEO at DaimlerChrysler AG 1998-2007 and Daimler AG 2007-2012

DaimlerChrysler AG (DCAG) stocks felt extremely during Chrysler Inc. expenditure increase and vehicle market lost extremely in USA. Engin Günana decided with Dr. Zetsche divorce Daimler-AG (DAG) and Chrysler Inc. Günana business program and profit at 1. year was the benefit for Günana engagement no time for education and development to Board of Management regarding Manfred Bischof proposal in 1992 to E. Günana, time to act. Günana IT-Foundation and development AI, Cube, Internet, Google, iPhone, iPad, GSM, Wi-Fi, Google, Facebook and YouTube with Google Inc., Facebook Inc., Apple Inc., was the certificate qualification and warranty for co-chairman function at 1997 with Prof. Dr. Schrempp after R. Eaton pension.

5 Reason was responsible for co-chairman job at DaimlerChrysler AG during 2000-2012

1. DaimlerChrysler AG 60% Market Capitalization lost in one year (1999-2000)
2. Turnover decreased with -14% after first year DaimlerChrysler AG merger.
(Minimize risk with B2B cooperation Daimler-Renault-Nissan)
3. Manfred Bischof wishes for chairman job during graduation, first Internet connection NASA/USA 1992
4. Background as Founder of IT-Technology at University Stuttgart and iPhone with Apple Inc. USA 1997
5. End of Robert Eaton chairman job at Chrysler Inc. in 1999.

1. DaimlerChrysler AG shares decrease 60% after 1 year

See chart 2 most critical problem, market capitalization from both companies decreases more than 60% with fatal consequences and lost for investors finance and rapid reaction was necessary and Board of DaimlerChrysler AG make me an offer to manage DaimlerChrysler AG as chief to prevent bankruptcy.

2. DaimlerChrysler AG turnover lost from +8% to -6% (-14%)

DaimlerChrysler AG 6% turnover lost was a problem after 8 % growing, during earnings developed stable, much more dangerous was the rapid loss of market capitalization this make DC weak against aggressive Investors.

3. Manfred Bischof chairman offer during graduation 1992

Former DaimlerChrysler AG supervisor board Manfred Bischof invite me at 1992 during my graduation Transformation MKS system from body- to grid system regarding FEM-System at Centre from Dr.-Ing. Bharat Balasubramanian and make an offer for Board of Member with education timeline about 20 years. My answer to Mr. Bischof chairman of Supervisory Board, i won't classic education and sheep race over 2 years but call me if nothing function, I'm ready if nothing function

4. Panik for Investors after DaimlerChrysler AG Merger, share prices lost, July 2000=50% lost from top.

After 3 months of the DCAG merger shares decrease extremely. The market capitalization of DCAG lost after 1. year over 50%. No time for 20 years education over 3 countries to start as co-chairman like Ola Källenius. Regarding Manfred Bischof wishes in 1992 for chairman position E. Günana began to manage Daimler-Chrysler AG as co-chairman with and successful IT- and iPhone Foundation in background and max authority

5. End of Robert Eaton chairman contract with end of 1999 at DaimlerChrysler AG

Robert Eaton and Manfred Bischoff believed in me, engaged and pushed me to Board of Management because of management competence, international experience and worldwide important IT-Foundation with AI, Cube, Internet, Google, Smartphones iPhone, GSM, Wlan (Germany) Wi-Fi (USA), Project management, at University Stuttgart and iPhone and iPad development with Apple Inc. in 1997.

Chart 2: Daimler-Benz and Chrysler shares in 1998 and DaimlerChrysler AG shares during 1999-2000

DaimlerChrysler AG and Real Estate and Finance crisis

Barrack Obamas Real Estate and Finance politic with massive credits to unemployment Blacks brought the pre financial crises at vehicle market in 2003 but Dipl. Günana substantial Business program to Daimler AG brought until 2011 best benchmark with 10% return after the risk with Chrysler end in 2007. Daimler AG lost more than 36 billion USD capital during DaimlerChrysler AG merger 1998-2007 and transfer additional internal more than 20 billion USD earnings to Chrysler Group against Dipl.-Ing. Engin Günana business politic for hundred thousand of Chrysler employee's pensioners. DaimlerChrysler AG merger ended 2007 with a disaster because of different products, culture and appreciation. After divorce process from Chrysler Inc. and 4 years business and product management Daimler AG profit jump to best value with 10 Billion EUR earning, best result in history, since foundation in 1926.

Daimler AG first earning about 10 billion EUR in 2011

Engin Günana business program ended with the best earning of Daimler AG history about 10 billion EUR in 2011. Engin Günana earn 10 billion in 2011, the merit to protect Daimler AG from bankruptcy from DaimlerChrysler AG (1998-2007) merger. DCAG shares lost about 60% during 1999-2000, at New-York Stock-Exchange DAG Board of Management (BOM) decided to pay Engin Günana merit after substantial and constant growing in few years.

Daimler AG substantial earning about 50 billion during 2011-2015

Dipl.-Ing. E. Günana business program with B2B and AI and discretizing of structure with equal parts, equal modules, equal products parts, flexible production with standardization of equal interface, developments, process and projects with partners Renault-Nissan and B2B brought Daimler AG stability and substantial growing during 2011-2015, in sum 50 billion EUR. Dipl.-Ing. E. Günana contract ends with 50 billion EUR earnings at 31.12.2015.

DaimlerChrysler AG Business Program - Finite Element and Structure Coupling

Dipl.-Ing. E. Günana DaimlerChrysler AG business transformation from Intercontinental merger with different products to B2B with cooperation partners Renault-Nissan and equal parts, modules, products, developments, process, projects and plants (Smart-Renault) was successful. Products and Partners fit much better together with Daimler-Renault-Nissan and B2B cooperation model without cost and liabilities. AI and FEM-Method, Algorithm and Transformation to business-model development and production. Daimler AG success, much more important was product portfolio and technology, strategy and common production lines. Artificial Intelligence and FEM Method, discretization to equal parts and modules, common developments and plants, B2B business strategy and homogenization, build element libraries for parts, modules, sections in development, realize common plants at production, and sale and marketing with common strategy. AI and Transformation to Economy and Business transformation and application higher mathematic and Finite Element Method to society foundation Artificial Intelligence, Economy and Business.

Daimler AG earning grow after divorce from Chrysler Inc. with -30 billion USD lost at 2007 to 10 billion EUR at 2011 substantial in four years, the best profit of Daimler AG history since 1926. Separating Daimler AG and Chrysler Inc. was eminent important, a business model with many dependencies less degree of freedom without future and success. Without a vision in phase of worldwide crises in 2009. Chrysler Inc. dept increase and increase from one year to next year, our job was in danger, Daimler AG future was in danger through finance crises real estate crise with very heavy Chrysler Inc. debts.

Application of Artificial Intelligence to DaimlerChrysler AG product development, production, increase equal parts and modules, reduce variants, divorce business dependencies change from merger model with dependencies and risk to cooperation model and B2B, divorce DaimlerChrysler AG because of failure build cooperation model with comparable equivalent partners Renault and Nissan. Increase equal parts, cooperate with in sufficient comparable projects. Artificial Intelligence to business and as against merger model with many dependencies and liabilities

iPhone Project 1997 - Finite Element and Devices Coupling

iPhone and iPad foundation and development 1997 we find our partner in USA with Apple Inc. Former chairman Steve Jobs start at Apple Inc. and came from company NEXT start as project manager at Apple Inc. Apple's one face to customer to us. On board Dipl.-Ing. Engin Günana, Dipl.-Ing. Klaus Hageman, Dipl.-Ing. Gerhard Weller, Dr. Rolf Klumpp. Our cooperation starts with Apple Inc. and Steve Jobs in 1997 and end with Steve Jobs death in 2011. The agreement with Project Manager Jobs and Board of Member Apple Inc. was in a range 1% to 10% shares.

1. AI Smartphone iPhone and next generation of AI computers

After our first meeting with Apple Inc. in Stuttgart, we founded with Apple Inc. iPhone, Engin Günana introduced his concept of a multi device phone, a combination of computer and phone pocket with a new finger and gesture-based OS. A pocket phone with multi devices with contents of devices which is necessary from chief engineer to businessman, a mixture of computer and phone in pocket format. Twelve and more devices in one device and give the product the name iPhone. Participants: Engin Günana, Dr. Rolf Klumpp, Steve Jobs Apple Inc., Klaus Hagemann (organization). The iPhone project started 1997 and end with death from Steve Jobs at end of 2011.

Already 1992 I introduce the first frequency first digital mobile network standard 1 G in common with Prof. Ernst Messerschmid at Space Technology Institute University Stuttgart, as evidence I choose the first character of my last name with G for Günana. 1G was qualified a mobile standard but was to slow for smartphone application and we decided push internet mobile network to higher standards with higher data volume rates and introduce a further development GSM from 1G to 2G with 900 MHz / 1800 MHz Funk Standard with the

name convention GSM Günana-Steve-Merkel a furthermore standard as evidence of my foundation. During iPhone development it was necessary to define frequency range for civilian application with civilian requirements and conditions to separate from military application. We start with 900 MHz / 1800 MHz and called our frequency range GSM regarding development project leaders name G for Günana, S for Steve as partner and with M for former spouse Melike. GSM Günana-Steve-Melike German military was involved to separate civilian frequency range from military frequency range with different civilian requirements and conditions with GSM and called standard as military frequency area.

During iPhone 1 and iPhone 2 development our challenge was to solve touch screen and higher network standard with higher data volumes requirements and conditions. A bottle throat was 2G GSM standard with to less data transfer capacity this requirement was our challenge to develop faster mobile network for less distance in offices and introduce a bridge solution with wireless connection and called Lan a turkish civilian rephrase for man in combination for industrial application for Germany and Europe WLAN and separate US American standard in agreement with Steve Jobs Wi-Fi and called my bridge solution standard IEEE 802.11x, with the name convention regarding iPhone notation

i and Phone to iPhone, I as appreciate and evidence for my foundation, 3 times E for the first character of my name Engin to fulfil 3 characters convention EEE accordingly. 8 for my shirt number as youth football player in middle field with number 8. Furthermore 02 for my target of leadership position as general department chief in position E2 during our iPhone development. Last but not at least 11 as appreciate to University Stuttgart faculty AEROSPACE and turkish graduation 10+1 with the scale from 1-10 with plus 1 as 11 and appreciate to our great foundation, 11 football player at field, in addition x for version developments index.

Our first production with Apple Inc. iPhone 1 with 2G didn't correspond my expectation my. We had solved big challenges, touch screen functionality, dimensions, packaging, quality, faster mobile net with higher data rates. We solved step by step all challenges and want the best at market in all disciplines.

A closed operating system called IOS with an application collection in store, apple specifics interfaces and a default scope of application for higher application engineers chief engineers and manager. Daimler AG prevents internal application of iPhone with regulation for camera and distribute employee mobile phones with tel. and SMS functionality and closed camera function.

Our greatest challenge was a sensitive multi touch screen and higher data volume. We stopped the delivery to private customers and rollout iPhone 1 to determined offices to evaluate our new WLAN and Wi-Fi Standard. I arranged with Steve Jobs name convention for German, EU and USA with Wlan and Wi-Fi with a new standard. After evaluation of WLAN (Wi-Fi) standard with iPhone 1 and iPhone 2, we called our new mobile funk standard for offices and home offices IEEE 802.11x standard, a furthermore development of IOS with multifunctional touchscreen ability, prototype rollout of iPhone 1 and iPhone 2 in offices with Wlan devices for field test.

iPhone 1 and IOS started with 2 main functions, open app with touch at app symbol at flat screen, steer with central button at bottom with curser function and return and backspace function to close apps. Stripe function we get later with iPhone 2 and IOS version. After our test with Wi-Fi which fulfil the higher date transfer rates our goal was a better functionality at touch scree display.

We decided to distribute as iPhone 4 slow Internet at field was our greatest challenge, we solved this internal with Wlan and Wi-Fi standard IEEE 802.11x coupled with much better functionality of new touch screen display function, which get a very complicated mesh layer technology during regular consultations at University Stuttgart with CAD and IT experts at display to consider finger stripes on flat screen, this function and more functionality we get with iPhone 4 with new application scope: Messages, Phone, E-Mail, Schedule, Calculator, Navigation, Maps, Camera, Video, Voice Recorder, Video Recorder, Video Player, Music Player and Music Channel (YouTube), Social Media and Facebook. Furthermore, we developed and consider data transfer standards Airdrop and Bluetooth. Responsible for distribution stop of iPhone 3G, development Wi-Fi, further

development IOS functionality with more function in combination with new flat touch screen display technology, data transfer technology Bluetooth and Airdrop, more application with more apps inclusive YouTube and social media was exclusively my content, without any support from Apple Inc.

iPhone development and Industry crime during (Turkey - Germany)

Four Persons die, during IT-Foundation iPhone, iPad and GSM: Steve Jobs, Gerhardt Weller, Mehmet Bostancioğlu at last Shinzo Abe in late phase, who support Engin Günana 50 billion EUR salary from Daimler AG in agreement with US company partners. The death of Steve Jobs and external college Gerhardt Weller was a great danger sign, meanwhile Engin Günana get 3 heart attacks and the reason of take distance from iPhone claims after 2011 in contract situation at Daimler AG.

NTV Reporter at Wall Street New York Stock Exchange Markus Koch came to Stuttgart and Daimler AG and interview Engin Günana but get didn't get answers the situation was very explosive because of death from his colleagues. Engin Günana take temporary distance from claims against Apple Inc. concerning iPhone, iPad and GSM developments.

Deaths, Industry crime and stolen IT-Foundation, the reason why Google Inc. change to Alphabet Inc. Facebook Inc. change to Meta Technologies Inc. and Daimler AG split to Daimler AG and Mercedes-Benz Car Group to escape liability capital.

Turkish national government with support German national government start an extortion and death program to steal IT-Foundation and destroy to Engin Günana co-chairman function and career with support from National Intelligent Agency MIT and BND, in contrary to agreement finally of course after Belin and Daimler AG AKP foundation in 14.08.2001 the real reason of AKP foundation with the target of industry crime from Turkish government to steal and sold Günana IT foundations Cube AI, Internet, GSM, Google, iPhone and WiFi

President Abe death at 2022 are evidence of Dipl.-Ing. Günana co-chairman job at Daimler AG and the evidence of Turkey's stolen 50 billion EUR from Turkish Government and Erdogan, after Dipl.-Ing. Günana Business Program to Apple Inc., Google Inc. with Internet and AI modules, Facebook Internet and Social-Media (Turkish industry crime was the reason of Nobel Peace Price to President Obama instead of to Engin Günana) DaimlerChrysler AG and Daimler-Renault-Nissan cooperation. Change classic business merger acquisition to B2B and cooperations with less 3%-5% over-cross participation with partners but without a financial risk and liabilities.

End of DaimlerChrysler AG (2007) and Turkey's spying activity at TIKA (2003- 2007)

Pre real estate and finance crisis influence to DaimlerChrysler AG (2007). The partnership of Chrysler Inc. and Daimler AG started with 36 billion USD invest from Daimler AG in 1998 through merger acquisition and end with sold to Cerberus Capital Investment for 6 billion USD with -30 billion USD lost. Business model merger acquisition was a flop, without synergy effects and without equal parts modules and structures, Dr. Zetsche and Wolfgang Bernhard reach a few things but not enough. SLK US brother Crossfire and introduction M300 for German market was too less. German customer was not ready for US American standard M300, too much consumption another problem. Asymmetric distribution concept Chrysler passenger car in Germany and German Mercedes-Benz car for USA market was not enough. Coupling similarity elements principles with parts, modules, components, structures, cars and market, asymmetric product displacement didn't match market and consumer expectation.

No equal parts no equal modules and structures no common plants, no common development projects. Too different product portfolio, too different culture, German panzer culture against American friendship and trust character since 100 of years the real reason why people choose to escape Germany and Europe, too different world, the reason of broken partnerships with -30 billion USD debt but not at all. Real estate and finance crises

and pre influence of economy crise with big passenger car portfolio with very high consumption. The market changed, in direction of high technology Hitech and Tech companies increase between 10-20 million new jobs were realized with IT Technology, see chart 23, 24.

Terror attack 2001 during CO-CEO and Co-Chairman at DaimlerChrysler AG

After few years silence I'd a bad meaning, which target follow our management, no common meetings from basic to top, college Friedrich Engels asked why didn't you take the steering wheel and steer our company. A merger or cooperation need the basic employees, but we saw only manager without any knowledge about technology, synergy specialists and experts. DaimlerChrysler Airline was the key of secrets, no information abouts common projects no information about project structures no information about cooperations partner and participant. After we started 2008 with partner Daimler-Renault-Nissan I was sure Daimler AG was in reality not interest in success this merger had another target, this project was not evaluated for a merger. Terror attack in 11.09.2001 to New York Stock Exchange during DaimlerChrysler AG merger, I was very impressed and surprised about Daimler AG colleague disinterest.

Mercedes-Benz Car Group AG, Berlin and Ankara strategy was to steal Dipl.-Ing. E. Günana IT-foundation (1984-2012) with Turkish worker engineer part AKP foundation at 14.08.2001 with 11 million members during DaimlerChrysler AG merger (1998-2007) with support from Turkish National Intelligence Chief Hakan Fidan in secret function at TIKA (2003-2007) prevent United States economy and finance hurricane with IT Technology with rapid terror attack to New York Stock-Exchange. Analysis from 1990 German Union 1990 in shadow of Terror Group foundation Taliban, AL Qaeda, Hamas was a storm attack of Germany for retribution 1939-1945 with partner Turkey in same situation n during 1914-1918. The impacts of 1. and 2. world war without end. 2001 the next beat but with Islamic terrorist. Former chancellor Berlin and Angela Merkel appreciates this with her name Merke(l) AL Qaeda and significant signature to couple camel sign synonym for Barbarian Islam Terrorist. Revenge the reason of Berlin, Ankara, AKP, Hakan Fidan and AL Qaeda to attack World Trade Centre in USA New York and steal through DaimlerChrysler AG, Hakan Fidan and TIKA IT-Foundation to third people and transfer after 20 years to Turkey.

iPhone Project - Steve Jobs die 05.10.2011 visitation from Ankara without invitation

Unexpected visitation from Ankara in 2011 with Hakan Fidan former secret service chief, Mustafa Varank former economy Minister, Bülent Yiğit President Erdoğan's 1. Finance and Economy advisor with an offer and contend 'our job can be end with death' to Engin Günana. Turkey's connection was Ali Tekeşin and spouse Melike Günana (div. 2013).

Engin Günana decline and precise friendly, that he won't cooperate with terrorists and stay at his actual jobs at Daimler AG and Apple Inc. with iPhone development. The visitation from Ankara explained that Steve Jobs was death, a very dangerous development with very hard consequences for Engin Günana and his professional career. Over 12-year extortion and pressure politic from Ankara and Berlin with the target stump Engin Günana to worker with worker conditions. During Daimler AG and US companies appreciate 50 billion salary as chief manager and co-CEO at Daimler-Chrysler AG, Apple Inc., Google Inc. and Facebook Inc. during 2000-2012 accordingly agreement.

Constraint conditions to Engin Günana at professional carrier, live, finance, housing, social security and healthcare in Germany. The reason Reality-TV (200) and Get-Response spying module (2012) at head with secret operation and Syrian war 2011 to simulate a bad Turkish manager and a successful cheap Islam Manager for EU labor market, after evaluate bad Islam ability for german qualified labor market, Germany start a second war to Ukraine to fill Europe with more capable employees during Syrian refugees fill turkish factories with cheap employees. The reason of Turkey to steal Engin Günana earnings from Daimler AG about 50 billion EUR during 2012-2016 which include Daimler AG, Chrysler Inc., Apple Inc., Google Inc., and Facebook Inc. salary and 967 billion EUR stolen fees payment from European Union, is the same crime and corruption impact from

11 million AKP members after AKP-Army in 15.07.2012 which ended with 3 million turkish opponent managers termination. Decoupling Management coupling Workers realize Adolf Hitler Politic and occupy first Turkey afterwards Günana assets.

The success of IT-Foundation at Stuttgart University 1984-1994 with Artificial Intelligence, Internet, Google 1986 at Aerospace-Institute, Mathematic-Institute, Informatic-Institute and Linguistic-Institute, Astra Satellite Systems and Airbus A320 furthermore iPhone, GSM, Wi-Fi development 1996-1999 and in follow with Apple Inc. was the real reason of DaimlerChrysler AG merger 1998-2007 and the reason of co-chairman function at DaimlerChrysler AG and Daimler AG during 2000-2012.

Get-Response Management Function was the reason of declined offers from C. Michel EU President, S. Nadella CEO Microsoft Inc. H. Fidan Turk. Nat. Int. Agency, M. Varank Turkish economy minister and Bülent Yiğit in 2011.

Get-Response Management Function injured intellectual property and copyright with great consequences and profit for state and economy. The reason of secret operations of Engin Günana to impact spying technology Reality-TV Function (2000) and local management condition and Get-Response Management Function (2012) with global management condition. 2012-2023 million of new vehicle and passenger car designs and villa was present to Dipl.-Ing. Engin Günana, daily positive politic messages from Europe Turkey and Islam world during plugs with mobbing in Turkish TV-Channels, Beraat and Erdogan Media and Internet and YouTube channels to push the cost to private household level and refugee labor market from Syria and Ukraine with the surface condition of a refugee but parallel in CEO function for state and Industry. Parallel processing and 'Gene and Function' as chairman control from distance Germany- and Europe Turkey- and Middle East over funk technology in state and economy management field

Agreement with European Union for Reality-TV and Get-Response services with open view and intellectual property and in replacement to IT-foundation and IT-development with best education at University Stuttgart, see Curriculum Vitae page 6-8. Co-chairman at DaimlerChrysler AG and Daimler AG during 2000-2012 after Robert Eaton contract end 1999 make view and intellectual property the one of the most successful manager which connect worldwide people make friends and partnerships with Digital Technology, Internet and Social Media Nobel with Nobel Peace Price but stolen to Islamist Barrack Hussein Obama to push the service price of Reality-TV and Get-Response down to private household level with 80,64 billion EUR per year our agreement to Dipl.-Ing. Engin Günana but stolen from Turkish government to finance Turkish military, Turkish politic, Turkish management, import goods, 11 million militant AKP members and 12 million legionnaires. Time to publish the reality with the target get back Nobel Peace Price participation and salary.

European Union Fees Payments - Intellectual Property and Copyrights 1984-2012

Brussel pay 30 EUR/month per European Union Private Household as substitute payment for using Engin Günana IT-Technology services: Reality-TV and Get-Response Management Function.

$$224 \text{ million households} \times 30 \text{ EUR} \times 12 \text{ months} = 80,64 \text{ billion EUR}$$

$$(2012-2023) 12 \times 80,64 \text{ billion EUR} = 967,64 \text{ billion EUR}$$

But stolen from Turkish government with secret military coup at 15.07.2012 but present as 15.07.2016 with fake date and changing national government regulations and justice govern with emergency condition. AKP Organization and Dictator Erdogan 11 million wild AKP Neandertals Turkeys infrastructure accordingly Turkish Wealth Fund infrastructure finance system, bank accounts, real estate, gold market, passenger car market, healthcare and closed parallel justice for opponents and punishment for 12 million legionnaires and use Turkeys economy, finance, military, barbarian Islam terror, German National Socialism (01/2016) with the source of secret services BND (Bundesnachrichtendienst Dienst BND) MIT and Turkish Media with one target steal Daimler AG salary payments to Günana

Turkey military coup 2012 after European Union fees payment agreement

The appreciation Nobel Peace Price. Tyranny Erdogan ordered actual economy minister Hakan Fidan to send my Nobel Peace Price to Barrack Hussein Obama during college Ali Tekeşin lost his promotion because of less capacity.

In 2009 nobody understood, why 44. US-President Barrack Hussein Obama get Nobel Peace Price to the beginning of his career. Economy minister Hakan Fidan chief of Turkish National Intelligent Agency realize and transfer Nobel Peace 4.4. US-President Barrack Hussein Obama.

Politic is an equation of unknowns with a postmodern support point of EU payments to Turkey, as appreciate to 44. US-President Obama to destroy mote than 10 million jobs, chart 23-24 and bankruptcy USA with credits to blacks in replacement of Nobel Peace Price and accordingly agreement with Angela Merkel and Erdogan.

Obama the enemy of USA and the friend of Islam Terrorist, nobody understands US-President 1. visitation in 2009 in Turkey, now it is clear, the stolen Nobel Peace Price was the reason in agreement with former

chancellor Angela Merkel. Erdogan started in 2011 with Esat a war in Syrian 2 year after 44. US-President Obama visitation and before 1 year before of Engin Günana and EU agreement between in 2012 to empty Syria with civil war realize refugees and cheap labor market as pre conditions to steal EU fees payments to Turkish military, Turkish management, 600 turkish parliamentarians,

Erdogan fill Turkey with 10 million Islam legionnaires and Islam terrorist and steal with acceptance of EU and Germany fees payments against with Dipl.-Ing. Engin Günana agreement with EU. The reason of 967 billion EUR stolen EU-TV payments (2012-2023) for Reality-TV and Get-Response services is an consequence military operation from Turkey, a logical result of Turkey illegal engagement in history with turkeys military operation through Hakan Fidan (MIT) in 2001 and TIKA mission during 2003-2007 with the target to protect Germany from IT-owner rights of Engin Günana, founder of: AI, CUBE, Internet, Google, UNIX, iPhone ,iPhone IOS, Flat touch screen technology, GSM, WLAN (EU) Wi-Fi (USA), YouTube.

Governments, economies and societies profit extremely, from foundations Artificial Intelligence, Internet, Google, UNIX, iPhone, GSM, Wi-Fi. Facebook YouTube. Astra Satellite Systems with digital technology, television, broadcast, furthermore from expert knowledge and management competence B2C, B2B overcross participation and products and experience after decades years manager, project leader and co-CEO function at DaimlerChrysler AG and Daimler AG Apple Inc. and 2 start-up companies Google Inc. and Facebook Inc. with the best profit of Daimler AG history 50 billion EUR during 2012-2016.

Turkeys' army coup started at 15.07.2012 and end with secret constitution of dictatorship in 2017 to steal EU-TV Fess Payment about 967 billion EUR developed transient a worldwide healthcare genocide program under misusing Engin Günana expert knowledge and management competition with Reality-TV and Get-Response Management Function. Meanwhile German Justice steal under umbrella of MIT and BND with support of Hakan Fidan IT-Foundation AI, Internet, Google, iPhone GSM and Wi-Fi and let Turkey, German and EU Economy use free expert knowledge and management competition against violation of intellectual property and copyrights without any payment in contrary to agreement with EU in which 224 million EU private households should pay E. Günana yearly 80,640 billion EUR.

AKP Erdogan and Fidan attack Turkey with army operation at 15.07.2012 and transform democracy to dictatorship with emergency rules change conditions, procedures and process install political dictatorship rules at 2017 to cut democratic rights and regulations for oppositions, open crime and corruptions possibilities for AKP government.

President Erdogan use data management operating system UNIX to separate AKP citizens from rest of citizens without any restriction killing stealing controlling are allowed in contrary to Turkeys laws. especially at finance healthcare and government services. Erdogan and Family own Turkey (government recourses, economy, finance, healthcare, AKP-Group with 11 million members). AKP group own complimentary quantity from Erdogan and Family. The rest are material (all) to use, like Jews during Adolf Hitler National Socialism

Turkey AI, Finite Element Theory and manager decoupling program

Turkey Army Coup at 15.07.2012 decouple Finance- and Healthcare-System Justice and Labor market from Opposition. President Erdogan constitute dictatorship at 15.07.2012, quit 3-4 million academics job, filled government structure, institutions and economy with agents, commissioners, police, military, terrorist and mafia, especially at finance sector, banks, justice and courts, bankruptcy millions of opponents, with force and extortion use fake court decisions and published bankruptcy as management inability.

Split Turkey citizens in three groups in Erdogan Government (owner) 11 million AKP member (group) and Turkey citizen (world). Use my Foundation Internet and Operating System Unix and share Turkey citizen (world) as material (income, asset pension) to Government (owner) and AKP (group).

Labor market 3-4 million manager lost their job, the manager market own Government (owner) and AKP (group). The premium vehicle market own Government (owner) and AKP (group). Government-Structure with all Institution own Erdogan Government (owner) and AKP (group). Finance sector, money and gold market own Erdogan (owner) and AKP (group).

Justice, Healthcare, Education, Agriculture own Erdogan Government (owner) and AKP (group). Agriculture products are encrypted and own Erdogan Government (owner) and AKP (group) derived from Unix OS and data management. Only owner of Agriculture can sort and find 'clean and health' products the other products are poisoned and make you sick and kill you earlier than expect a variant of Adolf Hitler mass murder through

life contraction through sickness politic, material to share and use. Turkish society group (world) is for Turkish Healthcare System mass sickness material, valuable material not for shoes, soap, more valuable, they pay much more for Erdogan (owner) and AKP (group) at clinic than to be death material, not practical and useable, but for private clinics, a variant of Josef Rudolf Mengele and Angel of Death politic.

Germany and Daimler AG foundation AKP at 14.08.2001 attack WTC contraction US-Government and Economy success and steal at same timeline Engin Günana IT-Foundation. AI, Internet, UNIX, Google, iPhone, GSM, Wi-Fi and install illegal with an operation to Dipl.-Ing. E. Günana spyware technology with Reality-TV-Function in head, Turkey grows with E. Günana expert knowledge and management competition during 2000-2012, developed a dictatorship model for Turkey, install at second Illegal operation spyware technology with Get-Response Management Function in 2011, attack at 15.07.2012 with army coup Turkey democracy and destroy with government force, Engin Günana success and professional career but let European Union Private Household pay TV-Cost Payments to Turkey to finance terrorism.

Turkey share EU TV-Cost payments about monthly, 6.7 billion EUR with Germany, Daimler AG and Islam Terrorists. Klaus Mangold Terror Method Foundation at Stuttgart-Feuerbach Leitzstrasse 145, at OASIS- Centre and act at field to Engin Günana with AKP-Cartel (AKP-member, Agents, Turkish-Media, actress) and destroy USA, Russia, China, GB and France health and finance with EL Qaida, AKP, Islamic-Terrorists and Virus attack. Germany protects economy and management, closed factories but transfer 3 x 400 billion EUR to companies and manager over expenditure cuts, stop unemployment and social-security payments.

For this method, Germany use Engin Günana in field with online control and attack and prevent his rights, money, income, payments, health and government services without his knowledge. Stop any insurance and social security payments, severance payments and didn't pay over 39 months any cent to Engin Günana but reserve 6,72 billion EUR per month EU-TV Cost Payments from European Union over Daimler AG and German Government for President Erdogan and AKP Party and Turkey

Turkey Erdogan Tyranny Stalin and Hitler Politic after 2012

3 million opposition manager jobs were terminated after AKP army coup 2012, without substitution in labor market. Engin Günana Co-CEO manager job was terminated from Daimler AG at 2012, with the most important IT-foundation of 21th century and with Daimler AG best profit in history with 10 billion EUR earning at 2012 and Get-Response Management Function, which decouple Engin Günana Co-CEO manager job from classic local management the result 50 billion EUR lifetime merit as pension and agreement with DaimlerChrysler AG, Apple Inc., Google Inc., Facebook Inc. Daimler AG fulfil our agreement with USA and collect 5 times 10 billion EUR regarding agreement to pay at 01/2016. Payment in Germany was problematic because of 50% tax which reduce our agreement to 25 billion EUR in contrary to our commitment with 50 billion EUR with our American partners. Daimler AG management developed a National Walth Fund model of Turkey and paid my asset over Mercedes-Benz Bank to Turkey

Turkey manager decoupling and downgrade program and (3 million manager)

Decouple rights, finance security and military for financial robbery. Decouple opposition from justice, finance, healthcare and labor market and use dictatorship and emergency rules and conditions during 2012-2017 occupied and constitute final dictatorship government 2017 for financial robbery.

Berlin-Ankara MIT and BND constitute AKP dictatorship at 15.07.2012 with an army coup change conditions to steal European Union Reality-TV and Get-Response payments to Turkey National Government. Turkey's Army coup at 15.07.2012 transform Turkey's Justice to Hitler National Socialism and Fascism. Finance source with UNIX user and group regulation for AKP-member (user/group/all) application to Turkish society to split the society AKP-members with user and group rights for Turkey's resources and rest (all) without any rights but as source material like Jews during 1939-1945. AKP change conditions for Turkey to steal 50 billion EUR earning from Dipl.-Ing. Engine Günana from Mercedes-Benz Car Group and 967 billion EUR from European Union TV payment program. Turkish national government and Turkish national Agency use actors since Turkish military coup at 15.07.2012 for financial crime.

Ankara and Turkish government developed programs for Turkish academics to destroy their professional career, steal finance, severance payments, unemployment payments and pension. Transfer Turkish academics with high pension payments to German pension insurance to Turkey.

Turkish academics decoupled in Germany from Finance, Healthcare, Social Security and Justice and Europe Union influence. Turkish National Intelligence Agency support finance and marriage crime. Plan and programs are documentation in encrypted as names of Ankara MIT location map as street, buildings etc. Turkish national government is liable for this financial crime.

Turkish government under AK-Party quit 3-4 million opposition managers without substitution after AKP military coup at 15.07.2012 and quit me from Daimler AG Management circle, too because of end of my business program to Daimler AG with maximum profit in Daimler AG history, about 10 billion EUR in 2011 and

substantial during 2011-2015 in sum 50 billion EUR. Berlin and Ankara changed after President Erdogan steal me Engin Günana 50 billion EUR at 01/2016 and began upgrade my field around me. The next slide illustrates the level before 2016 and after 2016.

Turkey Erdogan- Hitler Stalin AKP Tyranny and Change-Management

Terror qualifying criteria:

Aggression, Mobbing, Terror, Crime. Corruption, Imposing impostor (lying stage) sex potential

The reality: Hakan Fidan Bülent Yiğit Mustafa Varank Ali Tekeşin Melike Günana Göksal Günana Fevzi Yildirim were involved in this attribute with terror network ISIS and AKP. Erdogan Fidan and AKP attack 11.09.2001 NY WTC steal my IT foundation and accuse me with terror and define terror conditions as leadership criteria. The reason of my bankruptcy terror group Hakan Fidan, Bülent Yiğit, Mustafa Varank, Ali Tekeşin, Göksal Günana, Melike Günana build a team to transform in terror crime and corruption which match to Fidan and Erdogan accusation.

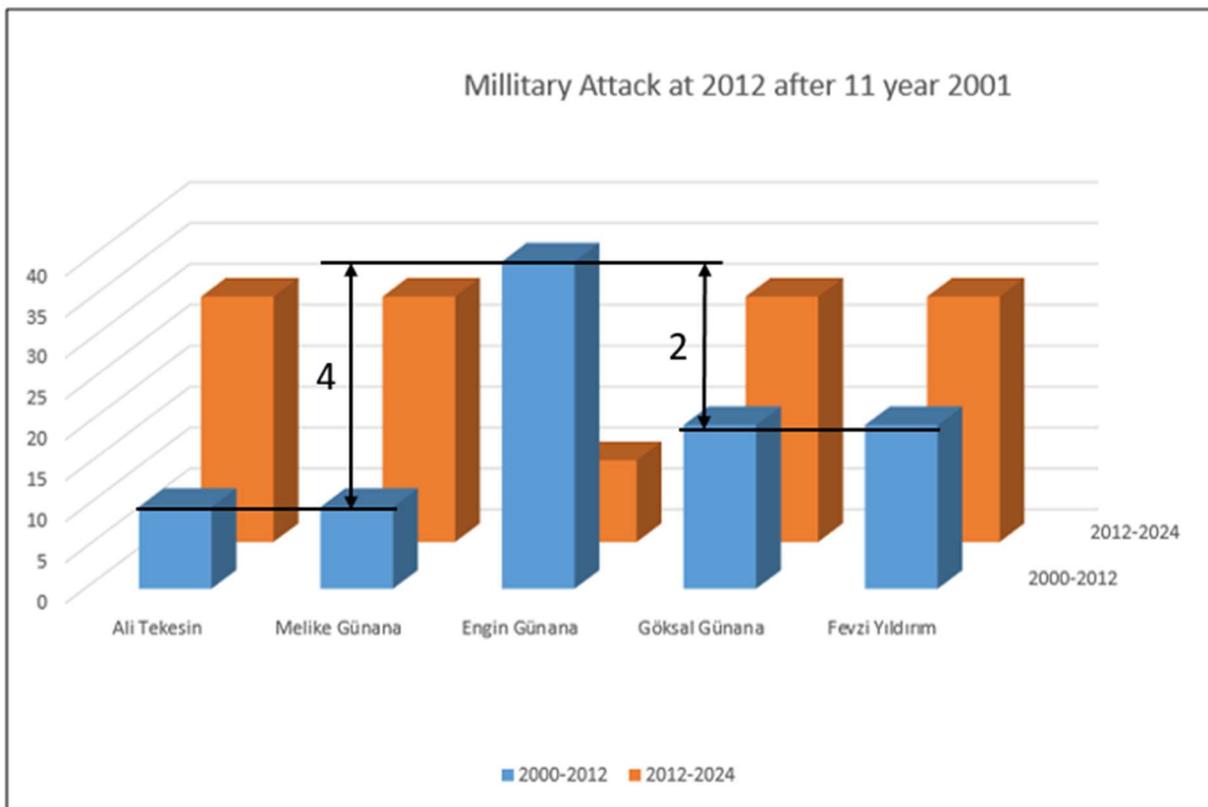

Chart 5: Destroy E. Günana Professional careers Upgrade with AL Qaeda (Merkel) terrorist Ali Tekeşin, Göksal Günana, Melike Günana (2017) Fevzi Yildirim

The downgrade program had the reduced European Union financial condition with 30 EUR/month Reality-TV fees from 224 million European Union private households in contrary to Get-Response Management Function which use state and economy management, an asymmetric a military tactic to forgery with finance crime derived from the plan in 2009.

Turkey Erdogan AKP - Industry and Finance Crime

Most simplicity crime and corruption in Turkey, through financial and profession damage to opponent managers, realized after military attack at 15.07.2012 to 3 million opponent managers, quit job without substitution, manager drive taxis or foundation a shop, second-hand shop to alive, most of them are death or in prison. A simple concept around me upgrades simple low educated housewives and workers downgrade manager.

Turkey's most simple crime and corruption after military coup at 15.07.2012 and validation, after successful validation of manager destroying concept and experience collection at turkeys' market, Ankara couple political and economy bribe connection to Germany and transform this damage concept to Germany and Dipl.-Ing. Engin Günana. Chart 4-5 we see the actual economy situation of Engin Günana field and professional career and financial condition. AKP and Erdogan think after stolen asset about 50 billion EUR from Daimler AG and 967 billion from European Union stolen IT-Technology, they can cut Dipl.-Ing. chairman status during 2000-2012 and steal his pension about 50 Billion EUR and send him to job with a 1 step upgrade, failure Turkish and German government should pay their bills and punishment.

AI and Finite Element Theory program to DaimlerChrysler AG and Daimler AG

Discretization, elementization, standardization, structure coupling, part and module strategy, increase equal parts reduce variants, cooperation- and product strategy. Dipl.-Ing Engin Günana get co-chairman Robert J Eaton/Chrysler job during 2000-2012 after Robert J Eaton contract end in 2000. Dipl.-Ing Engin Günana changed products, unit structure, outsource no profit and none core business units (canteen, workshop, service and parts, healthcare insurance) concentrate power engine at AMG changed process introduce unit concepts and scale effects in all divisions with detailed know how to realize. Increase equal parts and variability at equal parts; reduce variants at same time (intelligent variability) forced parts with political and societal capable partners from France and Japan and introduce a new Business model: Cooperation-Concept: Daimler-Renault-Nissan. Reduced expenditures, financial risk and increase synergy and scale-effects through cooperation.

Changed process strategy and business model, divorced not capable Chrysler from Daimler AG with -30 billion USD debt, sell Chrysler to Cerberus with 6 billion USD, founded Daimler-Renault-Nissan Coop. changed products and powertrain strategy increase equal parts, chancel less units, forced electrify and pushed SUV model at passenger car, cooperation at project base with the partners. Changed old face design with young fresh cheeky design (derived from film transformers) at truck division and forced 100% e-cars at VAN division. Daimler AG began to earn 10 billion EUR per year, the first time in 2011. Germany transfer Dipl.-Ing Engin Günana knowledge and manager competence over specifics secret companies with Reality-TV and Get-Response Management Function to German and Turkish industries with national government support. Turkish government build a new government with Erdogan in 2011 and send former national intelligence agency chief

Hakan Fidan actual foreign minister, Mustafa Varank and President Erdogan first economic and financial advisor Yiğit Bulut to me. The visitation with surprise, i didn't get any information invitation before, they told me my partner Steve Jobs are death and they want me at Turkish government with the target 'our job can be end with death.' I declined the offer and explained to them that i want to stay in civil area with an academic job at division Science Research and Development. My business concept was successful, Daimler grew financially substantially, every year 10 billion EUR earning, in sum 50 billion EUR, during 2012-2016. Daimler quit at 01/2016 my job, transferred 50 billion EUR to Turkey.

Germany bankruptcy me with Turkish military coup method after 15.07.2012 to Turkish citizens. AKP and President Erdogan founded 01/2016 Turkish Wealthy Fund (TWF) <https://www.tvf.com.tr> with 50 billion EUR capitalization. Financial report (Turkish) from 2017 with 160 billion TL capitalization capital, with parity EUR/TL (€/£) = 3.2, exactly 50 billion EUR.

Furthermore, foundation and developed iPhone 1 (3G) and iPhone 2 (4) with Apple Inc. and Steve Jobs. Details are archived at Engin Günana homepage <https://www.eq2-tech.com/> during Dr. Dieter Zetsche developed Smart-fortwo and for-four accordingly to our agreement and work sharing. I'm summery i steered Daimler AG and Dr. Dieter Zetsche developed Smart and present as official chairman his great competence. Dr. Dieter Zetsche fell onto the tap at Maischberger TV show at ZDF and lie and explain 'we ask sometimes our employees and listened to their suggestions (2000-2016) but 'ask employees means minority E1/E2 positions'. Meanwhile other passenger car companies transfer my knowledge to their research and development center at Turkish and German Industry.

Turkey 11 million AKP civil army support for Industry and Finance crime

Turkey finance was achieved in 11 million AKP members bank accounts with UNIX Operating System and group regulation. Erdogan used OS UNIX, which I developed at Daimler AG 1992 with IT-experts, data management and operating system for Internet application, to transform AKP-member to premium society with premium conditions, free access to finance and economy. Erdogan split Turkish society in UNIX Groups owner/group/all with the rights and steer Turkey with UNIX rights the reason why only 11 million AKP-member steal and participate from EU-TV-Cost Program Payments.

Erdogan is the owner of Turkey and AKP Group the owner of all. Group all have no rights are only material to use, cut, kill, steal etc. AKP Group with 11 million very dangerous wild animals control Turkey, Studio-City Çayırova with 5000 national guards. House of my parents are infiltrate with AKP legionnaires and agents, my environment and field at Germany and Turkey are not representative. 11 million AKP members are free to get monthly citizen payments without job. Capitol Berlin/Germany manage Turkey and Ankara with experience and background from Adolf Hitler Regime. Administrator of Turkey is Recep Tayyip Erdogan. Daimler AG Management support Turkey in many issues and give the direction since foundation 2001.

Turkey-Germany Industry and Finance Crime - Google and iPhone

German East and West build a Union 1990, several Terror Groups was foundation before. Hamas 1997, Al Qaida 1988, Taliban, 1990 Berlin's final curtain. 1998 Daimler-Chrysler AG and 2003 TIKA (IT Karlsruhe) to steal Engin Günana IT-foundation and develop System technology for Terror Groups, Terror groups who are at 2023 present in Turkey with their signatures. Osama Bin Laden, Taliban, Hamas, Syria Legionnaires was merge at 14.08.2001 to AKP with 11 million members. UNIX and President Erdogan Politic (you nix=you are nothing). During we developed an operating System for data management and Internet we called our Operating System 'you are nothing without us', you-nix (German nothing). Erdogan govern with dictatorship rules and extortion politic, attack with radioactivity, kill with cancer, make sick with chemical and biologic weapons with 11 million dangerous wild animals and destroy life of millions Turkish academics. Germany transfer Dipl.-Ing Engin Günana knowledge and manager competence over specifics secret companies with Reality-TV and Get-Response Management Function to German and Turkish industries with national government support with maximal profit, if we determine a cost-model we need a scale strategy for user like license cost for management. Different methods to realize and determine costs for business services.

Regions under illegal profit influence**2000-2023****Turkish Barbarian Islam Terrorism- coupled with German National Hitler Fascism**

1. **Germany** applied Hitlers national fascism conditions to Engin Günana at state and society, after E. Günana get 50 billion EUR pension in 01/2016 (from Daimler AG for 5 co-CEO jobs at 5 companies and IT foundation 1984-2012). Under support of Turkish national government, ISIS attack and use Hitlers national fascism rules term and conditions. Turkish Intelligence service MIT, Turkish military and dictatorship Erdoğan with 5 million AKP members in Germany coupled with barbarian Islam terrorism conditions to German institutions. Applied AKP's Middle East- and Barbarian Islam terrorism rules, term and conditions at state, economy and society, decoupled justice, finance, salary, income, payments and social security payments, healthcare insurances and pension services under ISIS and Turkish national government and MIT, Turkish military and AKP organization support. Best condition for max. capital crime and finance robbery. Use Engin Günana function Reality-TV and Get-Response interaction to save expenditures.
2. **Turkey** the mirror of Germany and Daimler AG worker concept with different leadership structure. Attack secret (no visible) with dictatorships Barbarian Islam Terrorism / German National Fascism rules, terms and conditions. No rights, no money. Turkish military attack 15.07.2012, democracy, installed dictatorship, rules, terms and conditions fill Turkey with millions of legionnaires, terrorists to protect dictator Erdoğan dictatorship with 12 million votes, protect Turkey's finance robbery about 1098 billion EUR (50+967 billion EUR), simulate visible surface democracy with justice, but decouple rights, finance, income and payments to Engin Günana and transfer secret to third person. Hide crime corruption and finance robbery in shadow of theatre of models, women, children and children under support from German Military. Best condition for max. capital crime and finance robbery through AKP members.
3. **Arab World (Former Ottoman Empire)** with intensive coupled condition at Turkey at state, economic, society and cultural, accordingly former Ottoman Empire historic. Turkey transfer expert knowledge business competence and finance to former Ottoman Empire countries in Arab World, forced parallel development from Barbarian Islam Terrorism / German National Fascism conditions and use labor market and terror groups of Arab World, in replace of Turkish national government force with punishments.

Turkey State Finance and Economy

Berlin transfer Germany economy, Industry Finance model to Turkey's AKP-Group with 11 million members from group leader to chairman and owner of small businesses. Ankara transfer Turkey's third country condition without civil rights, national fascism, dictatorship conditions, without social security and cheap labor market condition to Germany's foreigner, social-security recipients, unemployment's and pensioners. Turkey foundation in Germany private companies to murder and reduce secret unemployment's, social security recipients, healthcare recipients, old employees with high income and pensioners (chancer, coronavirus, heart failure) to save government expenditures. Germany install Engin Günana secret and illegal Reality-TV and Get-Response Management Function, foundation private companies to transfer expert knowledge and management competence to Turkey state and Industry. Reduce opponent manager and upgrade worker (CDU, Green) level (max. low-cost country).

DaimlerChrysler AG and Daimler AG expert knowledge was transferred to Turkey's state and economy during 2000-2015 and during 2015-2023 from German government, private economy, finance, small business, retail, wholesale, healthcare-system, secret service, justice to Turkey state and economy.

Engin Günana Reality-TV and Get-Response Management Function pushed Turkey's state and economy and financial growing with 0 invest and payments to maximum profit during 2000-2023. Best education,

knowledge, experience and management competence pushed Turkey's growing to maximum. Turkey financial growing and market capitalization amount between 30000 – 50000 billion USD during 2000-2023.

Germany transfers to 11 million AKP-Group Stasi function and apply and control Turkey at finance-system, justice and healthcare-system. Ankara and Berlin start a massacre program to non-AKP academics with support from BND but in cooperation MIT and Ankara, steal Turkish academics capital, capital from healthcare-insurance, unemployment-insurance, pension and extortion program with 100 academic deaths.

Regarding Adolf Hitler National Socialism, fascism and labor market politic to Jewish. Jewish who was very successful at Economy. Germany's state, economy and finance multi coupled condition with Turkey's National Socialism and Fascism conditions limited financial growing and saving illustration with Engin Günana Reality-TV and Get-Response Management Function exclusive to region Turkey and Germany

The Influence of Reality-TV with Management condition Get-Response Management Function during 2000-2023 change the profit and earning situation after 2012 elementary, during professional management from Turkey and Germany at State and Economy use continuously secret management function and earn about 10000 billion USD (black market 2-3 times higher) but 224 million European Union private households pay cost 30 EUR/moth. EU finance terror to destroy the most powerful countries with financing secret weapon at agriculture products and generate dangerous lab virus inject in China and spread with Turkish Airlines destination at first USA, Great Britain, France, China and Russia, at second India and Brasilia no Moslem countries.

Germany and Turkey destroy Engin Günana professional career and future. Kidnapping operation and using illegal Alien and Borg Technology, through spying. 967 billion EUR EU-TV Cost payments to Turkey for 11 million AKP and Hamas leadership Erdogan. Steal and transfer Engin Günana IT-Foundation: Internet and UNIX operating system to politic, crime and terror. Instead, computer science, encryption agriculture. Recep (No-iPhone) Tayyip (student Internet) Erdogan (No-Manager) and son Bilal (know-how) play, UNIX, Internet, Google, GSM and iPhone at Turkish society and Turkish market.

Destroying Engin Günana professional career visible, through government institution, use secretly Get-Response Management Function to protection dictatorship and fascism against humanity, democracy and social politic. Biological and chemical weapons in agriculture, new weapons and methods with agriculture and healthcare-system, weapons against nuclear weapons and modern military technology, developed, tested and validate with the capacity of best educated and most technology and IT experience of Engin Günana and for military application.

Encryption and decryption systems, virus technology. Military application to enemy society, hybrid human, alien and Borg Technology. Tyrants and monsters make humans for their high technology tools to learn and upgrade society. The National Government and National Intelligent Agency developed prototype agriculture with biological and chemical products signed and encryption, tested validated and learned.

State and Economy use Management Function Get-Response but simulate with stages Reality-TV Function Relationships around Engin Günana were upgrade to manager and directors, but in contrary steal and cut Engin Günana rights and finance, make dependent to government and hit through government institutions and processes, especially through Justice-system and courts (fake decisions), Finance- and healthcare-system. 600 billion USD was paid to Turkey as for Engin Günana Get-Response Management service at 23/09/2023 see Turkey GNI 2023.

Reason number 1: To steal 50 billion EUR from Daimler AG, which send to Turkey.

Reason number 2. To steal 967 billion EUR Reality-TV and Get-Response payments from EU.

Turkey Financial Robbery after 2012

Dictatorship rules after 15.07.2012, 11 million wild unemployed HAMAS-AKP Member, with the target to steal 80,64 billion EUR per year from EU as TV-Cost Payments. Engin Günana experience and competence during 1984-2012 excellent results: Foundation AI, Internet, Google, UNIX, iPhone, GSM, Facebook, YouTube with 5000 billion USD market capitalization and push B2B and B2C Economic sector pushed DaimlerChrysler AG from 30 billion USD debts to 50 billion EUR profit. Actual Ankara protects with 5000 military and employees from Turkish National Agency and Military forces trivial Household-Function and invert in every situation visible success and professionalism stages and daily attacks.

Tyranny Family Erdogan and AKP Group secret assets

AKP-Party owns over 90% of industry through occupation, AKP-members controlled state and economy, money flow, food flow, textile flow, labor market, most of them own vehicles more than 100000 USD. AKP are a good illustrated as Turkeys State and Economy manager with 10 million members. Every AKP member has group rights derived from our UNIX operating system for supercomputers. Turkey's sources Finance, Justice, Healthcare, State, Economy and Labor Market own at Erdogan clan at first than AKP-Group in reference to UNIX Operating.

System user/group/owner (Erdogan/AKP/Rest) rights from system UNIX. An unauthorized third person transferred my foundation system for Internet and data sharing to AKP Government. AKP Organization structure is a mirror from Adolf Hitler party NSDAP with the same voters (worker class) Turkey govern AKP-Organization in background the official government is only a camouflage. President Erdogan steal 01/2016 my Daimler AG earnings about 50 billion EUR and foundation Turkish Wealth Fund at 01/2016 with a capitalization about 160 billion TL corresponds 50 billion EUR (EUR/TL Parity = 3,2) see TWF financial report 2017 page 3, *Turkish* and constitute himself as chairman.

Turkey GDP during 2000-2013 and 2013-2021

2000-2013 positive development of finance and economy with Reality-TV function and management condition, during E. Günana co-CEO job, negative development of Turkeys finance and economy in private households after 2013. Responsible of negative development of GDP was interruption of expert knowledge and management competition to Turkeys state and economy because service interruption of spouse Melike (divorced 2013) and Turkish military coup, changed management prevent participation of Turkish Private Households from Reality-TV and Get-Response Management Function. Get-Response Management Function installation at 2012 didn't solve the problem of falling GDP,

Supporting of spouse Melike was no more necessary, after Get-Response Management Function (divorce 2013), GDP fall furthermore because households didn't understand use Expert Get-Response Management Function. GNI furthermore with Get-Response Management Function, manager and experts at state and economy and military. Manager at state and economy and military transfer expert knowledge, manager competence and finance from GDP (illustration of private households) to GNI (illustration of management) with investigation to management, companies, stock exchange and outland.

FE Business and IT competence 5 x co-chairman and 5 x co-CEO in 5 companies

Financial stability, expenditures 13000 EUR in 6 months and residence at German first class hotels GDP began to grow with Dipl.-Ing. Expenditures in 2020 in luxury hotels and shopping. More money means more economic possibilities, more financial and economic possibilities pushed GDP growing in Turkey and push USA balance sheet to positive level.

Former Ottoman Empire Countries finance market grow in average 2,5 x times more than in comparison to Turkey. Private Household and Family companies (illustration of economy) participate from Reality-TV function and different condition as in complicated Daimler AG and Mercedes-Benz Car Group management condition until 2012. The real reason of decoupling Dipl.-Ing Engin Günana from Daimler AG and Mercedes-Benz Car Group management structure and transfer to private household infrastructure which illustrate Middle East and Arab World economy infrastructure (resonance). Finance crisis in 2009 was a motivation to Middle East and Arab World to transfer assets from USA and stocks exchange and push their own economy which was more independence from western finance market and coupled to Engin Günana management conflict.

Constrained financial core application and condition to Dipl.-Ing Engin Günana to push AKP society and Islam world at level of former manager level of Dipl.-Ing Engin Günana and downgrade in contrary financial and economic society level at actual downgrade level to use leverage function of AKP and Islam but downgrade classic manager position to worker level, Islam strategy since 2001, since 3000 US manager was destroyed with terror attack at World Trade Centre in New York.

Turkish military coup and the beginning finance robbery 2012-2023

IT-Technology robbery Turkish government Berlin and Turkish military founded and installed at 14.08.2001 AK Party pre-condition to steal IT-Technology Internet, Google, Cube, AI, iPhone, GSM and Wi-Fi foundation, with support from BND MIT TIKA Hakan Fidan and German Federal court Karlsruhe under using different person as founder. One of them was 'Steve Wozniak' student college from Engin Guenana at Stuttgart real Name 'Klaus' call name 'Isaac'.

Lifetime merit robbery, 50 billion EUR for CO-CEO job at 5 companies. Turkeys install at 15.07.2012 second government rules terms and emergency condition for finance robbery and steal Dipl. Ing. Engin Guenana at 01/2016, 50 billion EUR lifetime merit. Lifetime merit for CO-CEO job at 5 companies Daimler AG Chrysler Inc. Apple Inc. Alphabet Inc. (Google Inc.) Meta Technology Inc. (Facebook Inc.) during 1984-2011 official 2000-2012.

EU-fees payments robbery, 967 billion EUR substitute and follow payments for IT-foundation and monthly participation with Reality-TV and Get-Response Management Function service from Engin Günana to state, economy and society, fees payments from 224 million European Union private households in 27 EU countries. Turkey use dictatorship rules terms and emergency conditions and steal through simplicity with similar persons stolen identity card, bankcard, digital coupled girls stolen IP address furthermore 967 billion EUR European Union TV Fees Payments with all government and infrastructure possibility of Turkey.

Turkey GNI, GDP development 2000 – 2022, GNI – GDP drift after 2012

Graphic show the asset transfer from citizens to AKP Group and Management, after AKP and President Erdogan constitution dictatorship at 15.07.2012 and cancelled 3 million opposition manager job without substitution.

GNI (AKP) = 4 x GDP (per capita). AKP income and capital grow 4 x times more without job, than pension and minimum wage from ca. 30 million employees and 20 million pensioners.

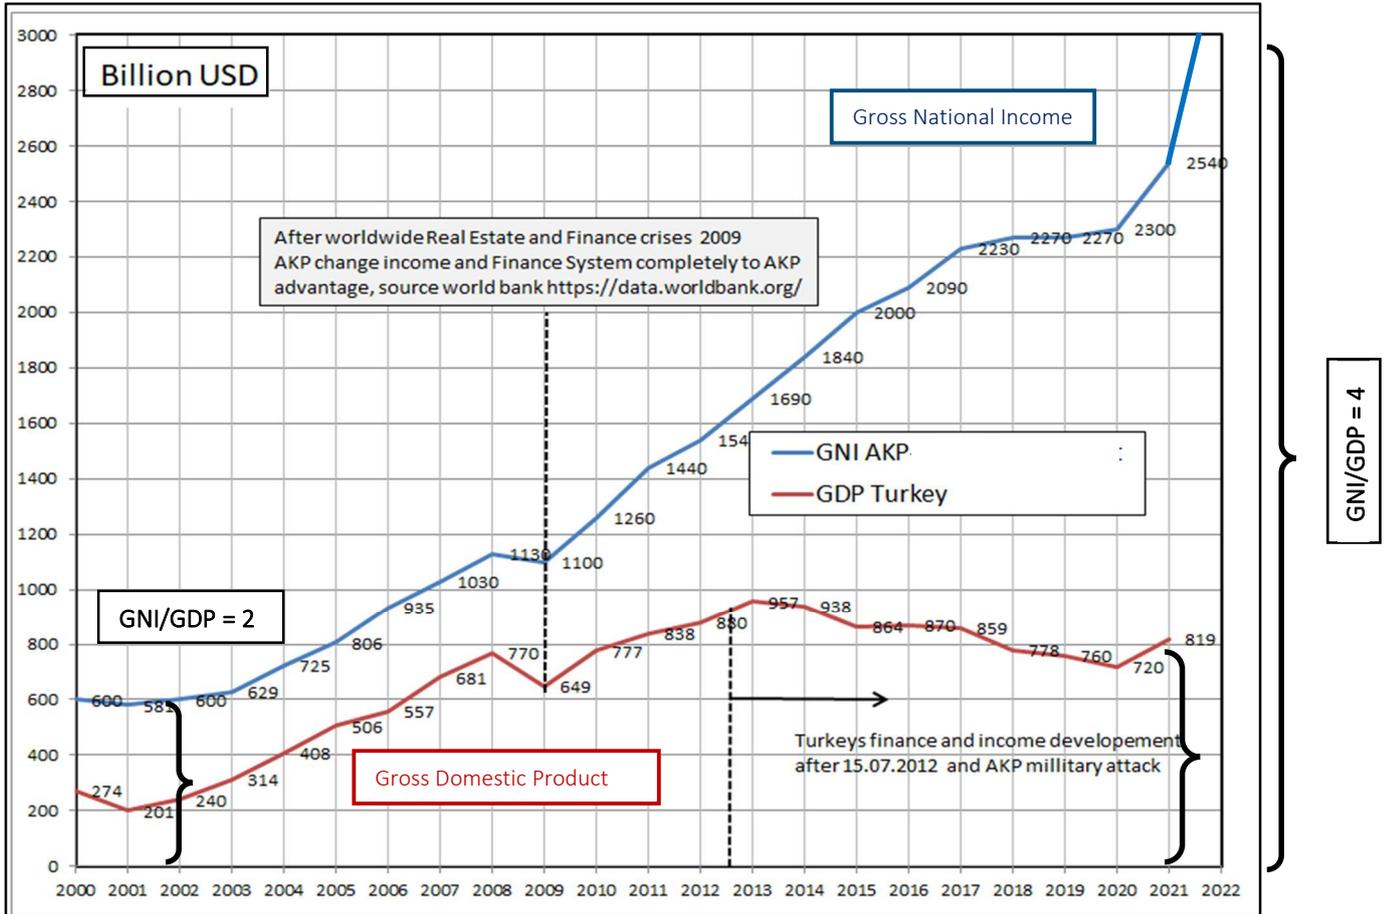

Chart 15: GDP-GNI drift Turkey’s income 2000-2023

Reason for asset transfer from GDP to GNI are Syrian Civil War at 2011 and AKP dictatorship foundation at 15.07.2012. At first step, AK Party quit 3-4 million opponent manager job and fill with AK Party-members increase their income 200%-300%. Occupy and takeover 80%-90% Turkish industry at first the highest profitable sector, quit opposition and manager job and fill with AKP manager and cheap refugees from Syria. Syrian civil war in 2011 was the first step for Turkey's new occupy and ultra-fascists labor politic, cancelled and closed labor unions after Erdogan constitute monarchy with military coup at 15.07.2012.

AKP terror occupy and takeover politic to high profitable sector catapult AKP income to 100% higher income every year, see graphic above. Turkey grows with 31 million employees and 5 million officers but Turkey's asset drift about 2500 billion USD to AKP, with black construction-, vehicle- and gold market ca. 5000 billion USD.

In analogy to Engin Günana business concept to Mercedes-Benz AG premium product offensive. AKP takeover bank- and telecommunication sector, Istanbul Stock market, oil, energy and finance sector, furthermore private healthcare, construction industry, real estate and gold market, private healthcare and vehicle market AKP politic is Adolf Hitler’s occupy and takeover politic. Hostile takeover through dictatorship force extortion and z-war. Z is the name from Dr. Zetsche former Daimler AG manager, known as Dr. Z responsible for Turkey’s dictatorship concept, not over shares at stock exchange. Turkey’s civil defense was destroyed in few days from

dictator Erdogan. Turkish government transfer this method to Germany and try killing every lawyer with German national Agency and BND and German military.

German lawyers get the order, defense only German government. The common Erdogan-Merkel-Daimler AG (EDM) plan was to steal European Union (EU) Private Households Cost to Turkey. To keep Reality-TV Function costs low 30 EUR per household per month, to get from every 224 million EU-Households. Daimler AG, German government and Turkish government use all government capacity to destroy the professional career because of very cheap private household costs. A national government war stage and studio cities began to destroy Dipl.-Engin Günana professional career.

From top founder and manager with foundation Artificial Intelligence, Internet, Google, iPhone GSM, Wi-Fi and best-case manager in co-chairman function at DaimlerChrysler AG and Daimler AG during 2000-2012, with the best earning of history substantial about 10 billion EUR per year and 50 billion EUR during 2012-2016 to worker level. Against the agreement between Engin Günana and Board of Member to get the earning about 50 billion EUR during 2012-2016, Daimler AG quit Engin Günana job at 01/2016, steal transfer 50 billion EUR with Dr. Dieter Zetsche, Erdogan, Melike Günana (in divorce), Kaya Çilingiroğlu, Oğuz Cetin to Turkey, foundation Turkish Wealth Fund and publish Melike Günana as Daimler AG co-chairman and responsible for Daimler AG big business success during 2000-2012.

Pure nonsense, liar politic from Erdogan, Merkel and Dr. Zetsche. Dr. Zetsche, Erdogan and Merkel didn't want lost their face and a gift for Melike Çorba for her terrorism activity at 11.09.2001 and 15.07.2012, at Turkey army coup. Dr. Zetsche chairman contract didn't shift in 2019. The terrorism and agent activity from Melike Çorba (Günana divorced 09/2013 and official at 21.11.2017, court Böblingen) activity was determined at 2023 from me, Engin Günana.

EU-TV-Cost Payments to Turkey: 30 EUR per private household per month from 224 million European Union Households during 2012-2023

6,72 billion EUR per month 2012-2023

80,64 billion EUR per year 2012-2023

Recipients: Turkish government, German government, Daimler AG
Mercedes-Benz Group AG, European Union Administration
Management (government, Economy), Terror Groups

After Dictator Erdogan's army attack to Turkish democracy, 3 million opponent leaderships lost their jobs in private sector and government, especially judges. Erdogan fill empty places with AKP militants and steal with fake court decisions opposition money and asset and kill them, put in prison and make them sick and let them pay for Turkish healthcare system.

Turkey transfers this crime concept to Germany, support Germany, change laws and conditions, prevent defense over justice and bring me to bankruptcy over 3 years steal payments from German government unemployment insurance, social-security-system and healthcare-system. Use force and extortion and put me with liar claims and false court decisions to psychological prison over 3 months, the same terror to opposition politicians in Turkey.

Daimler AG Management, President Erdogan and Chancellor Merkel steal European Union private household TV-fess payments to Engin Günana and begin to destroy my professional career as founder of Internet, Google,

UNIX, iPhone GSM and Wi-Fi during 1984-2000 and co-chairman at Daimler AG during 2000-2012, because of less EU-TV Cost payments per household about 30 EUR per month

Erdogan and AKP steal at 01/2016, earnings about 50 billion EUR during 2012-2016, one of the best profits in Daimler AG history, since Daimler AG founded and transfer secretly to Turkey. Founded Turkish Wealth Fund TWF: <https://www.tvf.com.tr>, Annual report from 2017 in Turkish speech published with a report 160 billion TL assets (50 billion EUR with EUR/TL (€/£) parity =3.2)

European Union (EU) paid TV-Cost to Engin Günana from 224 million European Union households for Reality-TV Household-Function and Get-Response Management-Function about 967 billion EUR during 2012-2023 but Turkish government steal the payments to Engin Günana.

Instead of paying Engin Günana TV-Cost from 224 million EU households Reality-TV Household-Function and Get-Response Management-Function services, Turkish and German national government steal the payments and spread to AKP at State and Economy, AKP-Party-Members, Turkish Media-Groups, Turkish banks, private sector, construction-industry and car-industry and use as finance source for import goods. Premium passenger cars increase from 10 million to 25 million during 2012-2021, most AKP-members own a premium car about 100000 USD inclusive tax. 11 million AKP-Party members get private pension and payments and didn't work.

Engin Günana as the owner of Reality-TV Household-Function and Get-Response Management-Function and economy coach and trainer didn't get any cent. European Union was to finance Islamic Terror Networks in fight against the Anti-Hitler Coalition, the Veto Power of UN: USA, Great Britain, Russia and China. Furthermore, against BRIC (Brasilia, Russia, India, and China)

German Healthcare-System: Payment's timeline in case of sickness Germany 2016, 18 months
 German Unemployment-System: Payment's timeline in case of unemployment 2016, 18 months

Society Profile: Premium Segment, max profit academics income: €87000/year

Healthcare payments for academics: 2700 EUR per month (depend on earning)

Unemployment payment ALG 1: 2500 EUR per month (depend on earning)

Social security payment ALG 2, Average: 600 EUR per month

Number of employees (2016-2019): 50 million

Number of academics (2016-2019): 19%

Number of emigrants (2016-2019): 26%

Number of 1-person households: 20%

Number of unemployed (ALG-1): 2,7 million

Number of unemployed (ALG-1) recipients: 0,7 million

Difference: 2,0 million

Number of academic's employees: 50 million x 0,19 = ca. 9,5 million

Number of academic's emigrant's employees: 9,5 million x 0.26 = ca. 2,5 million

Sum of expenditures

2,5 million academics emigrants don't get healthcare payments (KG), unemployment payments (ALG-1) and social-system payments (ALG-2).

Germany saving expenditures:

Healthcare / Unemployment payment KG: 2,5 million x 2700 EUR x 12 = 80 billion EUR
 80 billion EUR (2016)

640 billion EUR (2016-2023)

Get-Response - Pension Expenditure Saving Program

From emigrant's academics: Target pension with 67 years. Quit job with 54, die in follow od bad care, life expectancy to ca. 10 years, Mehmet Bostancioğlu die during divorce process because of kidney failure and cancer.

Target pension about 3200 EUR per month begins with 67 years, 20 years' reference period.

Social-system payment without healthcare costs ca. 900 EUR

Sum of regularly pension for 20 years: 3200 EUR x 12 (month) x 20 (years) = 768000 EUR

Expenditure social payments 900 EUR x 12 (month) x 10 (years) = 75600 EUR

Death after 10 years, difference 768000 EUR - 75600 EUR = 700000 EUR = 0,7 million EUR

Number of academics in 1-household: 50 million x 0,19 x 0,26 x 0,20 = 500000

Saving in sum: 0,7 million EUR x 0,5 million = ca. 350 billion EUR

Savings: 640 billion EUR + 350 billion EUR = 1000 billion EUR = 1000 billion EUR x 1,2 = 1200 billion USD

German and Turkish government kill foreign academics in long term with endurance load and fatigue death derived from Daimler AG endurance test for powertrain, make them sick and hold sick in social-system to save

government expenditures in social-system, unemployment-insurance and pension-system. Reduce pension from ca. 3200 EUR/month to 800 EUR/month, bankruptcy and contracting their life and send back to their countries. A bankruptcy, chancer and killing concept derived from Dipl.-Ing. E. Günana as pilot project.

Examples Mehmet Bostancıoğlu and Bayram Çiftci die because of chancer.

Emin Dağtekin die nearly. Turkey and Germany grow over dead and bankruptcy from Turkish academics. Berlin and Ankara destroy kill, destroy premium academics and citizens. Turkey-Germany-Alliance want make max. Profit in premium segment with premium foreign 'academics', though systematic and successive destroying their life, make them chancer and sick and hold in this position with radioactivity and chemicals. Use a further development endurance test system from Daimler AG to attack regularly with loads (radioactivity, chemicals, virus and bacteria, to constrain their live and kill them with a long-term sickness load.

Germany – Turkey common program

Mercedes-Benz - Turkish AKP Government-Cooperation and programs development with system competence from Daimler AG at Oasis-Centre Stuttgart-Feuerbach. Former Turkish National Intelligence Agency chief Hakan Fidan, former economy minister Mustafa Varank, Engineering service employees, President Erdogan first economy advisor Bülent Yiğit, former Daimler AG supervisor Klaus Mangold, Mercedes-Benz Car Group Board of Management.

President Erdogan Turkish Government and AKP-Management are cooperation partners of Technology foundation and development center Stuttgart-Feuerbach Germany. The means determine the end. Former Daimler AG manager Wolfgang Bernhard Terrorism Technology illustration to State and Industry began with Turkish AK-Party foundation at 14.08.2001 and destroying US-Government Finance-System and Financial-Centre at Twin-Tower after 3 weeks at 11.09.2001. German and Turkish army, Healthcare-System, Hotel-Branch, Insurance and Pension-System cooperate in same areal, see figure 1. They concentrate their Terror competence at the same areal.

In analogy Turkey financial recycling concept for Premium Turkish citizens and academics, AKP worker and AK-Party members are test Engineers with burglary and regularly poison loads and academics are test-mediums, derivative from Daimler AG Testing Program and division for Powertrain. Turkish financial premium academics from European Union were use as financial source for AKP-Government and Agra-industry in alliance with German government and industry.

Macro-Economic values and growing indicators aren't change many years since many years, but Turkish currency lost 5 times against Euro and Dollar since 2015. Turkish central bank had average ca. 100 billion USD every year. If the government hide ca. 423 billion EUR (2020) EUR (423 billion EUR + 50 billion EUR) and use only foreign currency (USD) from Turkish central bank $5 \times 100 \text{ billion USD} = 500 \text{ billion USD}$, print money and pay with Turkish currency, this is a good validation of Turkish currency deficit against currency EUR and USD with factor 4-5 since 2016. AKP spread ca. 550 billion EUR in black to the market (construction area, banks, gold and in physical garages and depots. After an earthquake at Syria borderline emergency helper, find 2 billion USD under a destroying building.

This solution fit to the money market politic of Turkish government to international partners to trade their export goods with Turkish currency TL. Turkish AKP government hide income about 473 billion EUR for themselves, make political agreement with international partners and trade with local currency, Turkish money market grow 5 times. President Erdogan stole 473 billion EUR (2020) EU TV-Cost payments and give me 250 EUR/month pension.

In addition, we see the high technology equipment with telephone, video, interactive and automatically get response technology in my head, which was installed secretly with government order without my knowledge but with two targets. To get answers for economic, political and society problems and questions which arrive daily from millions, if users 24 hours per day. These technologies were used.

Expenditures Saving Program Germany 2016-2019 (Reality-TV and Get-Response Interactive)

1. Bankruptcy opponents and citizens through justice system with government force, torture and extortion fake court decisions, stages and traps from Turkish Media companies. German government coup show beginner through cut all civil rights, use Dipl.-Ing. as pilot project and spying object interrupt and cut all rights with security and BND, save government expenditures and earn over 1200 USD/ Billion.
2. Healthcare Insurance Payments: Stop insurance payments with a stage and program under support from BND, prevent doctor visitation with virus attack between 3 days. Secret services pump KO gas in your residence, let you sleep 72 hours 3 days, instead of 8 hours and lost your insurance payments all the time because of 3 days visitation regulation, BND quit your insurance and damage your health.
3. Unemployment payments: Unemployment request to local government didn't realize, BND follow you take your request and say it's ok, you leave the institutions, BND throw your written request in trash and you didn't have evidence. Lawyers can't defense you because of AKP murders with program.
4. Social system payments. The same situation the same game, you get false court decisions based on liar's decision, postman rings 1 times very short and escape immediately and report you wasn't at home, more than one time.
5. Elapse time police officers enter in your rooms with force and put you in bring you in prison with a fake court decision. Government institutions don't give you support; lawyers can't defense you because of BND and MIT pressure death and disease program.

6. German government cut your rights with programs, procedures and processes, national government act with state extortion politic, crime and corruption, steal your civil rights and payments. German government save and earn much money and you lost your health and requirements with intention.
7. Pension: Government decouple you from professional career, throw you to street, didn't give you a job, decrease your pension points and pension payments from originally 3200 EUR/moth to 800 EUR/month and reduce your target pension 75%
8. Ministers Manager and Chairman play customer postman butcher, seller show simplicity with show and stage effect to damage your chairman status during 2000-2012 at Daimler AG because of stolen 50 billion EUR from Family Erdogan.
9. Last but not at least all stages inclusive government and private sector career and image damage end in a deadlock with two secret illegal operation to suck illegal and corrupt your brain content, expert knowledge and manager competence. Secret money transfer about 50 billion over Mercedes-Bank is real, stolen rights, money, asset and claims are real. Behind the curtain BND MIT Ankara and Berlin in front of you stupid nudes.

Foundation Timeline

1984-1994 Internet AI Cube Windows GSM

The reason of Artificial Intelligence (AI) foundation at University Stuttgart was Faculty 11 Aerospace (1984). We applied discrete FEM elements to sentence elements with bar, Traic3, Quad4 elements and applied to Germanium, Linguistic Institute to collect in different language and translation experiences. We order Prof. P. Lesky and Dr. J. Brenner at mathematic Institute for further development of AI. As result of this consultation follow 'Project Genius'. Cube was a higher mathematic application to language to developed neural network with the source of Brockhaus and British Britanica and the formalism of FEM (Finite Element Method) with complex couple transformation and multi-dimensional 3D Matix operation formulation in mathematical series known as string theory (Film Matrix show the hundreds of new math series as binary columns effect). We increase mathematic disciplines with multidimension matrix operation, integrate couple conditions.

Internet was a furthermore consequence foundation of local specific Fortran IV program libraries. Institute had different specific local Fortran IV program libraries accordingly specific disciplines. Fluidmechanic Mathematic Informatic and Aerodynamic Institute had different Fortran Libraries. We increase local Fortran IV program libraries to global Fortran IV program libraries. We connect step by step computers of University Stuttgart, computers of Universities in Germany, calculation centers with cray computers and finally Daimler AG computer with NASA USA 1992 and introduce 1991/1992 1-GSM at Daimler AG (German military was interest) and Space Shuttle Institute IRS Stuttgart-Vaihingen to Prof. Messerschmid. developed UNIX OS to separate data to group in user/group/all and share over Atlantic with NASA. Searching data was difficult Fortran Libraries specific groups therefore we developed a search engine Google to find worldwide data.

1992 Google Inc.- Alphabet Inc.

Searching data tree in UNIX data structure was very difficult without graphic interface, we decided to develop a search engine with strings to search and to share subroutines and program collections. A visitation from USA with Sergey Brin Larry Page and later Mark Zuckerberg secured our business foundation and development, we decided to foundation two start-up companies Google Inc. and later Facebook Inc. At this moment Google label doesn't exist. I introduce my US partners my IT Modules foundation and development AI-Translation, AI-Navigation, AI-Maps, AI-Voice Control and finally 1994 Google search engine. We arranged with Sergej Brin and Larry Page and later with Mark Zuckerberg to foundation start-up companies Google and Facebook at New York Stock Exchange rollout for free to customer and earn over advertising.

1997 iPhone iPad Apple Inc.

iPhone foundation was the next very successful foundation, business conditions with telephone, camera, pc, voice recorder, video player, calculator, fax, calendar organizer, maps and navigation, regularly meeting at customer bring us to the idea of a multi device with flat touch screen, the next generation of mobile computer in pocket format with a finger and gestures based operating system, much devices in one mobile phone, pocket office with computer, internet, e-mail, news, trading programs and weather forecast. Data transfer possibility per Airdrop and Bluetooth. A new standard for manager applications scopes at iPhone didn't change much since iPhone 4, Stock Exchange, News, Weather App, GPS, etc. in best quality without compromise, iPhone and iPad we find our partner at Apple Inc. during we developed passenger cars. First visitation first in Stuttgart our first moment I introduce my product and we find a name iPhone with the meaning i and Phone.

1998-2012 Co-chairman and co-CEO at DaimlerChrysler AG and Daimler AG

iPhone project was the reason of DaimlerChrysler merger, I show we my iPhone project and Steve Jobs, yes, we can, we can cooperate even though of the ocean, 10000 miles distance, Film Ocean 11 is as reminder to University Stuttgart Faculty 11 Aerospace (actual Faculty 6) our great IT foundation realize 21. century Video conference

A great job as Daimler AG chairman because of genius ideas and foundation, the key for chairman function at Daimler AG with very successful solution. From -30 billion USD lost during DaimlerChrysler 1998-2007 merger to 50 billion EUR earning with my technology and business program with the partner Renault and Nissan as cooperation partner during 2012-2016. Visitation of President Erdogan 1. Economic advisor Bülent Yiğit, former economic minister Mustafa Varank and former national intelligence chief actual secretary of foreign affairs Hakan Fidan. Ask me to work for Turkish government but with the danger to death. My answer of course not. I am a free and independent person. My target is to help society as civilian the timeline for German and Turkish government destroying plan to me after my partner Steve Jobs/Apple Inc. die.

2012-2016 Physical Decoupled from Management (Get-Response Management Function)

Daimler AG promise me participation because of my very successful job as chairman, I gave my Commerzbank account at Stuttgart but nothing happens, Timeline with sickness and car accident began, later I determine President Erdogan extortion and pressure program to Daimler AG Management to steal every year the earning with the beginning 2012. Every year 10 billion EUR secretly over Mercedes-Benz Bank in sum 50 billion EUR during 2012-2016, Turkish government transfer with extortion and secretly 50 billion EUR to Turkey and foundation Turkish Wealth Fund. After the last 10 billion EUR earning transfer, Daimler AG pull the emergency brake quit my job. Turkish government and national intelligence forces from both countries destroy my professional career, social status, healthy and life.

With the beginning of 2016 I determine some irregularity at professional discussion in my field without my active participation. Furthermore, I determine an operation on my head with MRT pictures. Daimler AG began outsourcing me from Management Circle. Departments chief Schnüppke and Fick discuss use me over loudspeaker system without management field. The validation- and Using phase from Get-Response Management Function. Daimler AG German and Turkish Government quit my job and began save expenditures with me as testing person with Reality-TV Function and Get-Response Management Function.

2016-2019 Social Security and Pension Prevention Program Germany

German government core program to private household to reduce household fees to 30 EUR per month per households from 224 million private households for Reality-TV services, during management at state and private sector use Get-Response Management Function free, against violation of civil rights, copy rights and intellectual property.

2019-2022 Downgrade and Bankruptcy Program

German national government, Turkish national government, Turkish military and Daimler AG applied core a program to Engin Günana to transfer with constrained condition to Turkey for finance robbery in 2023 about 600 billion USD from European Union and in 2024 about 703 billion USD from USA. 703 billion from IT Technology participation at Apple Inc. Alphabet Inc. (Google Inc.), Meta Technology (Facebook Inc.) Microsoft Inc. During core program constrained life situation about 6 months in hotels.

Turkey Finance Robbery and GNI per Capita[®]

Turkey GDP-GNI chart [15] per capita difference drifted extreme after military coup and dictatorship rules 15.07.2012. Kombi pack of AKP ultra-national fascists und Barbarian Islam Neo-capitalism robbed private household (workers and pensioner). During Family Erdogan, AKP, Turkish Military and Turkish government get extremely rich (GNI) fall Private Household income Gross Domestic Product (GDP). Chart 15 show GDP-GNI difference from Turkey during 2000-2023.

Household income GDP grow during 2000-2012 with Reality-TV Function in management field, GNI. AKP manager income grow parallel, exclusive finance crises in 2009. Military coup in 2012, absolutism and dictatorship rules terms and conditions. Daimler AG, Eastern Germany and chancellor Merkel and German Military install pre conditions for finance robbery and Install Engin Günana Get-Response Management Function for controlling to hold private life in low level position for cheap TV fees payment from European Union during military state and economy management use interactive Get-Response Management Function free. Spouse Melike divorce in 2013 interrupt assistance with expert knowledge and management competence transfer to Turkey in addition Turkish military Family Erdogan and AKP robbed Turkish society and private households.

Gross National Income grow during 2012-2016 through robbery politic of Turkish AKP Military and President Erdogan Family. Private household income illustrated in GDP fall therefore extremely, poorness of Turkish society and richness of AK party member differ extremely. AKP management profit increase. Manager didn't need management conditions and Get-Response Management Function, they are able use Get-Response Management Function services in every condition and field with 40-year experience. European Union fees payment program began 2012 about 30 EUR per month per household, 967 billion EUR (2012-2023).

AKP Government and economy pay import goods and use illegal secretly and free of charge high quality expert services from Engin Günana with GET-Response Management Function. Management at Government and Economy use 'Reality-TV-and Get-Response Management Function' transient and phase shift. Use secretly GET-Response Management Function to rob management competence and expert knowledge and violated civil rights, copy rights and intellectual property during private household mobbed with triviality and Reality-TV to get of very low-level answers.

Instationary asymmetric strategy input and output in antiphase from management and private households, stimulate with mobbing to get fight responses, necessary in politic fights. And get responses over dialog with high-quality GET-Response Management Function. Phase shift and asymmetric methods to rob secret Information but show trivial Reality-TV inputs and activities.

Industrial Crime Berlin-Ankara

Former Turkish national intelligence agency chief Hakan Fidan was ordered from Turkish national government and Turkish military for industry crime and industry spying to Engin Günana IT foundation at University Stuttgart and were invited 2001 to Germany to NATO Unite Allied Rapid Reaction Corps (Prof. Dr. Schrempp) as cover protection for terror attack at 11.09.2001 to USA.

Very successful IT foundation and development with Artificial Intelligence and Google modules smartphone development coupled with start-up companies and New York Stock-Exchange IPO was a very great problem for Germany military and passenger car and mobility development

New York with Daimler AG support in Germany. Terror attack to WTC follow in 11.09.2001 after AKP foundation in 14.08.2001. Engin Günana foundation developed and established Internet, GSM, Google, iPhone, Wi-Fi and during Fidan jobbed at TIKA 2003 – 2007.

TIKA encryption name, the mirror of TI is IT and KA follow in replacement of Karlsruhe, German national federal court is in Karlsruhe. Hakan Fidan use student colleague Klaus Isaac and Ali Tekeşin and spouse Melike Günana (div. 2017) to transfer IT foundation and development from Engin Günana to third fake person.

During Apple Inc. promised 1% shares to Günana, we expect 10% participation this was our target. Our agreement process stopped with Steve Jobs death in 05.10.2011. In same year in 2011, Hakan Fidan, Mustafa Varank and Bülent Yiğit from Turkish national government visit private residence from Engin Günana without an invitation. Steve Jobs made Engin Günana in 1999 an official offer, with the target, our job can be end with death. I explained them, I won't change my job Melike Günana (div. 2017) and Ali Tekeşin were involved.

German National Intelligent Agency visit me at Daimler AG and describe with force I have no participation rights in contrary to our commitment with Apple Inc in 1998 and even though I was the initiator, the founder, the developer, the manager and chief engineer of iPhone, at same period we lost external colleague Gerhardt Weller too. Short time later Daimler AG Berlin and Ankara decouple me from management.

TIKA, Karlsruhe (Federal Court) Berlin and Ankara steal and robbed IT-Foundation of Engin Günana, AKP and TIKA was founded to occupy Günana IT-Foundation. US government Economy and Finance force was immediately destroyed after AKP foundation in 14.08.2001 with terror attack group at 11.09.2001.

Terror groups Taliban El Qaida and Hamas was foundation at same period with Eastern Germany and West Germany Union in 1990 is conspicuous. It is conspicuous too that US army fight against caves and hills. Film Nothing Hill describe you are on false path.

Agents from German Democratic Republic DDR started at Daimler AG in 2011 Get-Response Management Function in replacement of manager and co-CEO function. Ankara Berlin and Daimler AG Management extortion politic, transfer Engin Günana IT-Foundation to Daimler AG and third people.

Berlin and Ankara cut Engin Günana Apple Inc. participation and transfer to Daimler AG, even though the contract situation with Engin Günana and DaimlerChrysler AG clarified with the result of no conflict, with participant Dipl.-Ing. Engin Günana, Dr. Rolf Klumpp and Klaus Hagemann, insurance department and human resources confirm this. No conflict with company and employee agreement and contract rights and no conflict with DaimlerChrysler AG job condition with second job as iPhone product manager.

Prof. Dr.-Ing. Bharat Balasubramanian, Daimler AG was convinced if someone can change our future, then this is me, Dipl.-Ing. Engin Günana. I was very surprised by this disappointment in 1994 but he had right, never than less great person with great vision at Daimler AG. Prof. Dr.-Ing. Bharat Balasubramanian escaped at 2012 to USA/Alabama.

Nobel Peace Prize stolen from President Erdogan to US-President Obama 2009

Artificial Intelligence AI is 40 years old and we are the architects Engin (numeric formulation) Dan (mathematic) Sabine (Linguistic). The Film Matrix described mainly "the big afraid" from German government over the achievement of and physical theory numerical mathematic and computer and the unique realizing in 1985. We want use numerical mathematic and computer science in discipline linguistic. I describe this in first semester with the words 'I want define the world new'

Artificial Intelligence 1985 was the next generation of IT Technology after 1969 US Apollo program for moon. A new era after Apollo program, the first step in digital century. Astra Satellite System, German Space Shuttle Ariane, Speech recognition, Internet, navigation, physical description of finite elements and numerical approximation methods, computer and the importance of algorithms. The big boost for small businesses and Business to Business and increasing sector B2B with cooperations. Merkel and Erdogan's fictitious education can be disclosed from the national security crypto symbolic with terror impact to NY Stock Exchange and occupied IT Technology Cube. Cube is a coupling system of finite elements with physical description affected with religion and business for market acceptance in contrary to Islamic rejection.

The trio President Huss.ein (steal) Oba.ma (ottoman Empire ma) Angela (fish) Merkel (remember, no documentation Cube) and Recep (iPhone) Tayyip (Internet) Erdogan describe the IT-Technology, AI, Internet, Windows, GSM, Google, iPhone, Wi-Fi, Social-Media Facebook and in follow Nobel Peace Prize 2009 with big Industry crime from Daimler AG, Apple, Germany, Turkey. Stolen Nobel Peace Prize from Daimler AG to AKP (foundation from Daimler AG and Berlin) Erdogan and transfer to President Obama, in replacement decoupled 23 million US-IT Jobs and coupled 23 million Islam Terrorist.

With the beginning of terror attack 2001 to New York Stock Exchange destroy in sum 23 million US-IT jobs in replacement and displacement with 23 million Islam terrorists and legionaries with ca. 8 million displacement refugees from Syria and ca. 6 million displacement refugees from Ukraine.

Merkel and Erdogan graduation with physic theology and economy is absurd and a liar construction from the beginning of German Union and AKP foundation. The same convention to President Erdogan children with son Bilal as Google search engine synonym and daughter Sümmeyye as serial formulation of matrix-cube operation as owner illustration.

"Lies and Profits" Von der Leyen name convention as leadership criteria and success method, synonym for the insincerity of German and Turkish politics. With extreme extortion threats and violence. German Turkey steal with support from TIKA National Security secret service chief Hakan Fidan MIT and MIT mole Melike Günana (div. 2017) Internet, Google, Cube, iPhone, GSM and Wi-Fi inventions.

Germany and Turkey transfer Nobel Peace Prize to Obama and deceive cheat with false finance politic support and Obamacare. Erdogan wants in replacement of stolen IT Technology and Nobel Peace Prize payments. Daimler AG and European Union use me as one of the most successful Dipl.-Ing. Engin Günana as none official commissioned co-chairman and co-CEO simultaneously at five companies, Facebook, Google, Apple and DaimlerChrysler AG install Reality-TV and Get-Response Management function make an agreement with 30 EUR per private household and kill evident Gerhard Weller, Steve Jobs and later Japan President Abe.

Daimler AG transfer steal and transfer my Nobel Peace Prize to President Obama for worldwide communication with people, communities, social networks contacts with medium Internet, Google, Smartphone, GSM, Wi-Fi and Social-Media. Internet and Social-Media, connect people worldwide. Actual statistics show we connect worldwide 4,5 billion citizens with Internet and 4 billion citizens with smartphones and social media. President Obama destroyed in unknowing million of US IT Jobs and bankruptcy with support from Daimler AG and Berlin with mass credits to Blacks US-Banks and destroy in follow million of US IT jobs and impact US finance in addition with extreme expensive Obama Healthcare Policy.

German and Turkey with good couple condition to Obama with Nobel Peace Prize transfer through industry crime and corruption IT-Technology AI, Internet, Windows, Social-Media, Google, GSM, Wi-Fi and Smartphone developments but shaved simultaneously US-economy and labor market with fake economy and finance politic. Germany and Daimler AG transfer Dipl.-Ing. Engin Günana success, participation, merit and salary to Barbarian AKP Islam Terrorist and President Family Erdogan.

President Erdogan invests in his Family and Military with military coup and dictatorship in 2012. ASELSAN (Sel.uk Albayrak) TURKISH MEDIA (Beraat Media) Healthcare Private Hospitals (Emine Erdogan) and construction Industry (Bilal Erdogan), build crime and corruption infrastructure at finance with support of Turkish secret service MIT, Beraat Media company (finance corruption with stars), ASELSAN drone company (fake evidence collection through camera technology) Private Healthcare Clinics Medicana and Medical (fake medical reports collection) steal and suck 967 Billion EUR European Union payments and pay income of ca. 10 million Barbarian Islam Legionary army and 11 million AKP member.

Film Matrix describe the theft of Google, film Transformers the cube as an AI unit. Daimler AG, Berlin and Ankara destroy with fake economy support to President Obama unbelievable ca. 20 million jobs at IT sector. Daimler AG and President Erdogan send 11 million AKP-members in 2012 in pension "as fight mass and fight army" against 5 times co-chairman and co-CEO and Nobel Peace Prize owner Dipl.-Ing. Engin Günana and filled Turkey with 12 million Islam legionary army in replacement and displacement of 12 million US jobs, chart [22]

European Union Payments – Turkey Finance Crime

11 million AKP members are since 2012 in pension through Germany army coup in Turkey in cooperation with turkish military. Turkish – German National government forces break daily door keys with fixed and mobile x-ray detectors for vehicles. 5000 soldiers are installed at Çayirova for mobbing and discrediting, third persons break door keys photos and published as evidence for partnership with Dipl.-Ing. Engin Günana

Turkish government and AKP steal during 2012-2023 in sum 967 billion EUR EU payments, stolen IT foundation AI, Cube, UNIX, GSM, Internet, during 1984-1994, Google, iPhone and Wi-Fi during 1994-2012, stolen classic professional career, stolen classic rights, stolen money asset and pension and destroying health under misusing Reality-TV and Get-Response Management Function.

Co-chairman at DaimlerChrysler AG and Daimler AG during 2000-2012, with the best result at 2011 about 10 billion EUR earnings, best in history and substantial 50 billion during 2012-2016 at Mercedes-Benz Car Group AG. Foundation was consequent stolen and transferred with crime, corruption and forgery from Germany to with support from Ankara and Berlin and Turkish national Intelligence Agency MIT Hakan Fidan and Ali Tekeşin.

National Intelligent Agency Turkey MIT and Germany BND realize a program with the target to steal Engin Günana foundations, co-chairman function and credibility under misusing Reality-TV and Get-Response Management Function. Berlin and Ankara use pressure and extortion at Finance-System, Healthcare-System and Justice-System to destroy Engin Günana professional career, finance, healthcare, rights to steal EU payments for Reality-TV and Get-Response Management Function services in sum about 967 billion EUR during 2012-2023 and applied to Ukraine citizens and refugees you get nothing no social security just hard jobs for less income.

Complimentary strategy from former chairperson Dr. Zetsche/Mercedes-Benz Group, President Erdogan Turkey and former chancellor Merkel/Germany hides Engin Günana foundation: Artificial Intelligence, Internet, UNIX, Google, Cube, iPhone, GSM, Wi-Fi and co-chairman function at DaimlerChrysler-AG and Daimler-AG during 1984-2012 and Apple Inc. Engin Günana Most Valuable Lesson (Presentation from Steve Jobs)

Statement Engin Günana to Steve Jobs ‘If you do the right things on the top line, the bottom line will follow’. I explained this Steve Jobs with follow explanation:

What they meant by that was:

‘if you get the right strategy, if you have the right people and if you have the right culture at your company you'll do the right products, you do the right marketing you do the right things logistically in the manufacturing and distribution and if you do all those things right, the bottom line will follow

Macro economic model and tolerance calculation

Macro economic model contend tolerances in number of managers, consulting cost and fix unit costs with 288000 USD with 0% interest and 534000 USD. 5% interest. LLC=2 harmonize international claims for financial and punitive damages. Mathematil statistic model sigma failure displacement content ca. 70% precision or ca. 30% difference.

Manager model consider 4-6 million managers population, consulting cost 40.000 USD -50.000 USD derived from 250 EUR/hour and month 160h. The failure difference with ca. 70% precision regarding standard failure deviation formula amount between 28.000 USD and 35.000 USD and matched to our efficiency model E. Unit cost are fix with 288.000 USD/month and 0% interest or 534.000 USD/month and 5% interest.

Turkey with specifics condition 11 million free AKP member and 12 million imported Islam legionary army have the task to decrease monthly consulting cost with industrial crime from 40.000 USD-50.000 USD to private household model tel. fees with 30 EUR but without any content and function. Therefore, these very strong condition allowed us to increase the financial model with punitive damage with 5% interest and LLC = 2.

Last but not at least we shouldn't forget Industry and financial crime are the result, Dipl.-Ing Engin Günana the reason with expert knowledge, manager and business competence. It's the same reason of 20-25 million destroyed jobs which was expected from IT-Technology hurricane since 1984, but destroyed from former German chancellor Angela Merkel 44. US-President Obama and actual Turkish President Erdogan in replacement of 11 million AKP (official) member in pension and 12 million Islam legionaries (Turkey election with 12 million more votes to AKP and Erdogan than Turkeys population with 52 million official registered 18 voters over 18.)

Payment regulations from European Union for Reality-TV- and Get-Response Management Function

Excellent education, great foundation and experience in science, research, development and technology at University Stuttgart with Prof. Prof. Prof. John Agyris, Prof. Ernst Messerschmidt Germany 1. astronaut at Aero Space Technology Faculty

International cooperation project with global player and 5 times CO-CEO job at Daimler AG, Chrysler Inc., Apple Inc., Google Inc., Facebook Inc., Renault and Nissan during 2000-2012 at Daimler AG.

Experience collection at German government, social security and services, refugees politic, justice regulation for social security and unemployment. Election procedures, democracy labels, military and dictatorship rules, laws conditions and regulations at finance market in Germany, Turkey and Europe, open doors to crime and corruption.

Dialogs with President over social media with global player US-President Biden, Russian President Putin, France President Macron, Great-Britain Presidents Rishi Sunak and Keir Starmer, closed singularities of expert knowledge, management competence and society experience.

Payment regulations from European Union (EU) for consulting services, advertising and media services to private households since 2012 are priced with 30 EUR per household, per month, from 224 million private households (inclusive Great Britain) to Engin Günana regarding agreement in 2012 at Daimler AG.

Reality-TV- and Get-Response Management Function transfer digital expert knowledge and management competence and consulting services to 85 million Germany citizens and 85 million Turkey citizens.

Expert consulting services, expert advertisement are coupled with salary and consulting costs, which should be balanced from EU.

UNIX Operating System is a computer program for data management in which data are sorted in user/group/all with different management rights and can't be an argument to decouple salary income and payments from consulting services and advertisement.

Private households and less capable regions, regions with less science, research, development and technology in Turkey, Middle East and Arab World are more suitable for Reality-TV functionality. Developed countries Germany and European Union are more suitable for Get-Response Management Function but both Functions are coupled

During private households use Reality-TV Function with simplicities and trivialities, manager and management at state military and economy use Get-Response Management Function to transfer expert knowledge and manager competence and are used from Mercedes-Benz Car Group, Daimler AG, Presidential Palace, Turkish Parliament MIT or mobile conference during children and housewife are at field (asymmetric conference)

UNIX data management regulation with closed financial salary payments system for 11 million unemployment AKP member since 2012, without any job, is a financial crime couple element to transfer merit, income, payments from consulting services of Engin Günana to Turkey's commander politician and manager and at state economy and military.

Daimler AG occupy AI, transfer to Debbis GmbH (100% daughter) sell Debbis GmbH to Deutsche Telekom Deutsche Telekom transfer AI and Cube to German Tech companies realize automatic mesh generators and FEM analysis reduce structure optimization from 4 week to 1 day

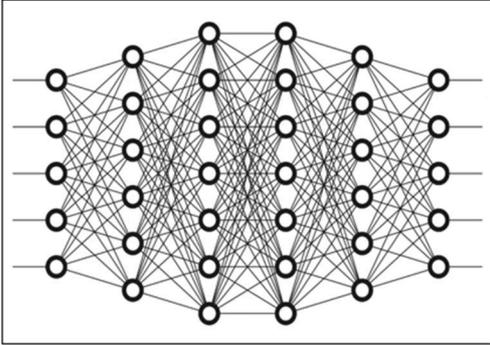

We realize the fastest and cheapest structure development optimization with automatic mesh (coupling) mass pc chips parallel calculation architecture in supercomputer and reduce extreme research development time and cost for car and metal industry but Daimler AG and Ankara stole our IT foundations. An evidence of automatic mesh generators is the sculpture in front of Deutsche Telekom AG. The Response Function from of Dialog with Matix and Cube with coupling algorithm known as Artificial Intelligence is the same couple algorithm to language with three node sentence element (Triac-3) and planar coupling and four nodes (tetraeder solid element) for volume coupling.
