Co-chairman at DaimlerChrysler AG and Daimler AG**2000-2012**

IT-Technology function Artificial Intelligence, Internet, Cube, Google, iPhone, GSM, Wi-Fi great success was the reason with Apple Inc. and Steve Jobs was the reason to order Engin Günana to co-chairman regarding Manfred Bischof acquisition at 1992 during graduation at Daimler AG at Dr. Kern department. An offer for a co-chairman Job with Prof. Dr. Schrempp involved, Dr. D. Zetsche in 2000. Robert Eaton contract end in 2000 with follower Dipl.-Ing. E. Günana as emergency solution after DaimlerChrysler AG shares lost in 1999 and 2000 massive.

Agreement

Co-chairman function at DaimlerChrysler AG and Daimler AG after Robert James Eaton contract end of 2000

Contract Partner Evidence

DaimlerChrysler AG, Prof. Jürgen Schrempp, Robert James Eaton, Dr. Dieter Zetsche, Dr. Leopold Mikulic (E1), Dr. Joachim Schommers (E2), Peter Lückert (E2), Dr. Hans Frey (E3), Hans Michel (E4)

Agreement Target

Push and increase DaimlerChrysler AG shares substantial to positive value and Daimler AG earnings to 10% return, after DaimlerChrysler AG shares lost in 1999 and 2000 extremely. First positive earning and potential growing at stock of Daimler AG own Dipl.-Ing. Engin Günana, after divorce from Chrysler in 2007 and Barrack Obamas Real Estate and Financial crises at 2009.

Agreement salary

First positive earnings (2011-2015) but renewal to 2015 with 5 x 10 billion EUR because of risk and lost in addition to DaimlerChrysler AG earnings between 1999 and 2000.

DaimlerChrysler AG 1998-2007

DaimlerChrysler AG (DCAG) stocks felt extremely during Chrysler Inc. expenditure increase and vehicle market lost extremely at USA. Engin Günana decided with Dr. Zetsche divorce Daimler-AG (DAG) and Chrysler Inc. Günana's business program and profit at 1. year was the benefit for Günana engagement no time for education and development to Board of Management regarding Manfred Bischof proposal in 1992 to E. Günana, time to act. Günana IT-Foundation and development AI, Cube, Internet, Google, iPhone, iPad, GSM, Wi-Fi, Google, Facebook and YouTube with Google Inc., Facebook Inc., Apple Inc., was the certificate qualification and warranty for co-chairman function at 2000 with Prof. Dr. Schrempp after R. Eaton pension.

Five Reason was responsible for co-chairman job at DaimlerChrysler AG during 2000-2012

1. DaimlerChrysler AG 60% Market Capitalization lost between one year (1999-2000)
2. Turnover decrease -14% after increase +8% at first year
3. Manfred Bischof wishes during graduation and Internet contact with NASA/USA 1992
4. Background as Founder of IT-Technology at University Stuttgart and iPhone with Apple Inc. USA 1997
5. End of co-chairman Robert Eaton contract in 2000

1. DaimlerChrysler AG shares decrease 60% after 1 Year

See chart 2 most critical problem, market capitalization from both companies decreases more than 60% with fatal consequences and lost for investors finance and rapid reaction was necessary and Board of DaimlerChrysler AG make me an offer to manage DaimlerChrysler AG as chief to prevent bankruptcy.

2. DaimlerChrysler AG turnover lost from +8% to -6% (-14%)

DaimlerChrysler AG 6% turnover lost was a problem after 8 % growing, during earnings developed stable, much more dangerous was the rapid loss of market capitalization this make DC weak against aggressive Investors.

3. Manfred Bischof chairman offer during graduation 1992

Former DaimlerChrysler AG supervisor board Manfred Bischof invite me at 1992 during my graduation Transformation MKS system from body- to grid system regarding FEM-System at Centre from Dr.-Ing. Bharat Balasubramanian and make an offer for Board of Member with education timeline about 20 years.

My answer to Mr. Bischof chairman of Supervisory Board, i won't classic education and sheep race over 20 years but call me if nothing function, I'm ready if nothing function.

Panik after DaimlerChrysler AG Merger, share prices, July 2000=60 (40% lost)

Chart 2: Daimler-Benz and Chrysler shares in 1998 and DaimlerChrysler AG shares during 1999-2000

After 3 months of the DCAG merger shares decrease extremely. The market capitalization of DCAG lost after 1. year over 60%. No time for 20 years education over 3 countries to start as co-chairman like Ola Källenius. Regarding Manfred Bischof wishes in 1992 for chairman position E. Günana began to manage Daimler-Chrysler AG as co-chairman with and successful IT- and iPhone Foundation in background and max authority

4. Worldwide most important IT-Foundations at University Stuttgart 1984-1994

Experience at IT-Foundation and development manage IT-Projects: Artificial Intelligence, Internet, cube, matrix and string theory with speech discretization and coupling with orthogonal condensation methods, fast Forward Fourier transformation for voice recognition with Intercultural competence and partners integration in Google (module) between 1984-1992 and transfer with international project and partners to China and USA

5. End of Robert Eaton contract in 2000 at DaimlerChrysler AG

Robert Eaton and Manfred Bischoff believed in me, engaged and pushed me to Board of Management because of management competence, international experience and worldwide important IT-Foundation with AI, Cube,

Internet, Google, Smartphones iPhone, GSM, Wlan (Germany) Wi-Fi (USA), Project management, at University Stuttgart and iPhone and iPad development with Apple Inc. in 1997.

Real Estate and Finance crise and DaimlerChrysler AG

Barrack Obamas Real Estate and Finance politic with massive credits to unemployment Blacks brought the pre financial crises at vehicle market in 2003 but Dipl. Günana substantial Business program to Daimler AG brought until 2011 best benchmark with 10% return after the risk with Chrysler end in 2007. Daimler AG lost more than 36 billion USD capital during DaimlerChrysler AG merger 1998-2007 and transfer additional internal more than 20 billion USD earnings to Chrysler Group against Dipl.-Ing. Engin Günana business politic for hundred thousand of Chrysler employee's pensioners. DaimlerChrysler AG merger ended 2007 with a disaster because of different products, culture and appreciation. After divorce process from Chrysler Inc. and 4 years business and product management Daimler AG profit jump to best value with 10 Billion EUR earning, best result in history, since foundation in 1926.

First earning about 10 billion EUR in 2011

Engin Günana business program ended with the best earning of Daimler AG history about 10 billion EUR in 2011. Engin Günana earn 10 billion in 2011, the merit to protect Daimler AG from bankruptcy from DaimlerChrysler AG (1998-2007) merger. DCAG shares lost about 60% during 1999-2000, at New-York Stock-Exchange DAG Board of Management (BOM) decided to pay Engin Günana merit after substantial and constant growing in few years.

Substantial earning about 50 billion during 2011-2015

Dipl.-Ing. E. Günana business program with B2B and AI and discretizing of structure with equal parts, equal modules, equal products parts, flexible production with standardization of equal interface, developments, process and projects with partners Renault-Nissan and B2B brought Daimler AG stability and substantial growing during 2011-2015, in sum 50 billion EUR. Dipl.-Ing. E. Günana contract ends with 50 billion EUR earnings at 31.12.2015.

Daimler AG Business Program

Dipl.-Ing. E. Günana DaimlerChrysler AG business transformation from Intercontinental merger with different products to B2B with cooperation partners Renault-Nissan and equal parts, modules, products, developments, process, projects and plants (Smart-Renault) was successful. Products and Partners fit much better together with Daimler-Renault-Nissan and B2B cooperation model without cost and liabilities. AI and FEM-Method, Algorithm and Transformation to business-model development and production. Daimler AG success, much more important was product portfolio and technology, strategy and common production lines. Artificial Intelligence and FEM Method, discretization to equal parts and modules, common developments and plants, B2B business strategy and homogenization, build element libraries for parts, modules, sections in development, realize common plants at production, and sale and marketing with common strategy. AI and Transformation to Economy and Business transformation and application higher mathematic and Finite Element Method to society foundation Artificial Intelligence, Economy and Business.

Daimler AG earning grow after divorce from Chrysler Inc. with -30 billion USD lost at 2007 to 10 billion EUR at 2011 substantial in four years, the best profit of Daimler AG history since 1926. Separating Daimler AG and Chrysler Inc. was eminent important, a business model with many dependencies less degree of freedom without future and success. Without a vision in phase of worldwide crises in 2009. Chrysler Inc. dept increase and increase from one year to next year, our job was in danger, Daimler AG future was in danger through finance crises real estate crise with very heavy Chrysler Inc. debts.

Element application and coupling at DaimlerChrysler AG and Daimler AG 2000-2012

Application of Artificial Intelligence to DaimlerChrysler AG product development, production, increase equal parts and modules, reduce variants, divorce business dependencies change from merger model with dependencies and risk to cooperation model and B2B, divorce DaimlerChrysler AG because of failure build cooperation model with comparable equivalent partners Renault and Nissan. Increase equal parts, cooperate with in sufficient comparable projects. Artificial Intelligence to business and as against merger model with many dependencies and liabilities

Decouple opposition from justice, finance, healthcare and labour market and use dictatorship and emergency rules and conditions during 2012-2017 occupied and constitute final dictatorship government 2017 for financial robbery.

Berlin-Ankara MIT and BND constitute AKP dictatorship at 15.07.2012 with an army coup change conditions to steal European Union Reality-TV and Get-Response payments to Turkey National Government. Turkey's Army coup at 15.07.2012 transform Turkey's Justice to Hitler National Socialism and Fascism. Finance source with UNIX user and group regulation for AKP-member (user/group/all) application to Turkish society to split the society AKP-members with user and group rights for Turkey's resources and rest (all) without any rights but as source material like Jews during 1939-1945. AKP change conditions for Turkey to steal 50 billion EUR earning from Dipl.-Ing. Engine Günana from Mercedes-Benz Car Group and 967 billion EUR from European Union TV payment program. Turkish national government and Turkish national Agency use actors since Turkish military coup at 15.07.2012 for financial crime.

Ankara and Turkish government developed programs for Turkish academics to destroy their professional career, steal finance, severance payments, unemployment payments and pension. Transfer Turkish academics with high pension payments to German pension insurance to Turkey.

Turkish academics decoupled in Germany from Finance, Healthcare, Social Security and Justice and Europe Union influence. Turkish National Intelligence Agency support finance and marriage crime. Turkish government under AK-Party quit 3-4 million opposition managers without substitution after AKP military coup at 15.07.2012 and quit me from Daimler AG Management circle, too because of end of my business program to Daimler AG with maximum profit in Daimler AG history, about 10 billion EUR in 2011 and substantial during 2011-2015 in sum 50 billion EUR. Berlin and Ankara changed after President Erdogan steal me Engin Günana 50 billion EUR at 01/2016 and began upgrade my field around me. Erdogan and AKP image and financial damage validation

Most simplicity crime and corruption in Turkey, through financial and profession damage to opponent managers, realized after military attack at 15.07.2012 to 3 million opponent managers, quit job without substitution, manager drive taxis or foundation a shop, second-hand shop to alive, most of them are death or in prison. A simple concept around me upgrade simple low educated housewives and workers downgrade manager.

Turkey's most simple crime and corruption after military coup at 15.07.2012 and validation, after successful validation of manager destroying concept and experience collection at turkeys' market, Ankara couple political and economy bribe connection to Germany and transform this damage concept to Germany and Dipl.-Ing. Engin Günana. Chart 5 and 6 we see the actual economy situation of Engin Günana field and professional career and financial condition. AKP and Erdogan think after stolen asset about 50 billion EUR from Daimler AG and 967 billion from European Union stolen IT-Technology, they can cut Dipl.-Ing. chairman status during 2000-2012 and steal his pension about 50 Billion EUR and send him to job with a 1 step upgrade, failure Turkish and German government should pay their bills and punishment.

Meanwhile other passenger car companies transfer my knowledge to their research and development centre at Turkish and German Industry.

UNIX OS applied to 11 million AKP members. Dictatorship tool for Finance Robbery after 15.07. 2012

Erdogan used OS UNIX, which I developed at Daimler AG 1992 with IT-experts, data management and operating system for Internet application, to transform AKP-member to premium society with premium conditions, free access to finance and economy. Erdogan split Turkish society in UNIX Groups owner/group/all with the rights and steer Turkey with UNIX rights the reason why only 11 million AKP-member steal and participate from EU-TV-Cost Program Payments.

Erdogan is the owner of Turkey and AKP Group the owner of all. Group all have no rights are only material to use, cut, kill, steal etc. AKP Group with 11 million very dangerous wild animals control Turkey, Studio-City Çayırova with 5000 national guards. House of my parents are infiltrate with AKP legionnaires and agents, my environment and field at Germany and Turkey are not representative. 11 million AKP members are free to get monthly citizen payments without job. Capitol Berlin/Germany manage Turkey and Ankara with experience and background from Adolf Hitler Regime. Administrator of Turkey is Recep Tayyip Erdogan. Erdogan govern with dictatorship rules and extortion politic, attack with radioactivity, kill with cancer, make sick with chemical and biologic weapons with 11 million dangerous wild animals and destroy life of millions Turkish academics. Germany transfer Dipl.-Ing Engin Günana knowledge and manager competence over specifics secret companies with Reality-TV and Get-Response Management Function to German and Turkish industries with national government support with maximal profit, if we determine a cost model we need a scale strategy for user like license cost for management. Different methods to realize and determine costs for business services.

Regarding Adolf Hitler National Socialism, fascism and labour market politics to Jewish. Jewish who was very successful at Economy. Germany's state, economy and finance multi-coupled condition with Turkey's National Socialism and Fascism conditions limited financial growing and saving illustration with Engin Günana Reality-TV and Get-Response Management Function exclusive to region Turkey and Germany

The Influence of Reality-TV with Management condition Get-Response Management Function during 2000-2023 changes the profit and earning situation after 2012 elementary, during professional management from Turkey and Germany at State and Economy use continuously secret management function and earn about 10000 billion USD (black market 2-3 times higher) but 224 million European Union private households pay cost 30 EUR/month. EU finance terror to destroy the most powerful countries with financing secret weapon at agriculture products and generate dangerous lab virus inject in China and spread with Turkish Airlines destination at first USA, Great Britain, France, China and Russia, at second India and Brasilia no Moslem countries.

Germany and Turkey destroy Engin Günana professional career and future. Kidnapping operation and using illegal Alien and Borg Technology, through spying. 967 billion EUR EU-TV Cost payments to Turkey for 11 million AKP and Hamas leadership Erdogan. Steal and transfer Engin Günana IT-Foundation: Internet and UNIX operating system to politics, crime and terror. Instead, computer science, encryption agriculture. Recep (No-

AKP Protect Finance Crime after 2012

Dictatorship rules after 15.07.2012, 11 million wild unemployed HAMAS-AKP Member, with the target to steal 80,64 billion EUR per year from EU as TV-Cost Payments. AKP-Party own over 90% of industry, AKP-members controlled state and economy, money flow, food flow, textile flow, labour market, most of them own vehicles more than 100000 USD. AKP are a good illustrated as Turkey's State and Economy manager with 10 million members. Every AKP member has group rights derived from our UNIX operating system for supercomputers. Turkey's sources Finance, Justice, Healthcare, State, Economy and Labor Market own at Erdogan clan at first than AKP-Group in reference to UNIX Operating.

System user/group/owner (Erdogan/AKP/Rest) rights from system UNIX. An unauthorized third person transferred my foundation system for Internet and data sharing to AKP Government. AKP Organization structure is a mirror from Adolf Hitler party NSDAP with the same voters (worker class) Turkey govern AKP-Organization in background the official government is only a camouflage. Turkish military coup and Finance Robbery beginning 2012

IT-Technology Robbery Turkish government Berlin and Turkish military founded and installed at 14.08.2001 AK Party pre-condition to steal IT-Technology Internet, Google, Cube, AI, iPhone, GSM and Wi-Fi foundation, with support from BND MIT TIKa Hakan Fidan and German Federal court Karlsruhe under using different person as founder. One of them was 'Steve Wozniak' student college from Engin Guenana at Stuttgart real Name 'Klaus' call name 'Isaac'.

Lifetime merit forgery, 50 billion EUR for CO-CEO job at 5 companies. Turkey install at 15.07.2012 second government rules terms and emergency condition for finance robbery and steal Dipl. Ing. Engin Guenana at 01/2016, 50 billion EUR lifetime merit. Lifetime merit for CO-CEO job at 5 companies Daimler AG Chrysler Inc. Apple Inc. Alphabet Inc. (Google Inc.) Meta Technology Inc. (Facebook Inc.) during 1984-2011 official 2000-2012.

EU-fees payments, 967 billion EUR substitute and follow payments for IT-foundation and monthly participation with Reality-TV and Get-Response Management Function service from Engin Günana to state, economy and society, fees payments from 224 million European Union private households in 27 EU countries. Turkey use dictatorship rules terms and emergency conditions and steal through simplicity with similar persons stolen identity card, bankcard, digital coupled girls stolen IP address furthermore 967 billion EUR European Union TV Fees Payments with all government and infrastructure possibility of Turkey. Graphic show the asset transfer from citizens to AKP Group and Management, after AKP and President Erdogan constitution dictatorship at 15.07.2012 and cancelled 3 million opposition manager job without substitution. GNI (AKP) = 4 x GDP (per capita). AKP income and capital grow 4 x times more without job, than pension and minimum wage from ca. 30 million employees and 20 million pensioners.

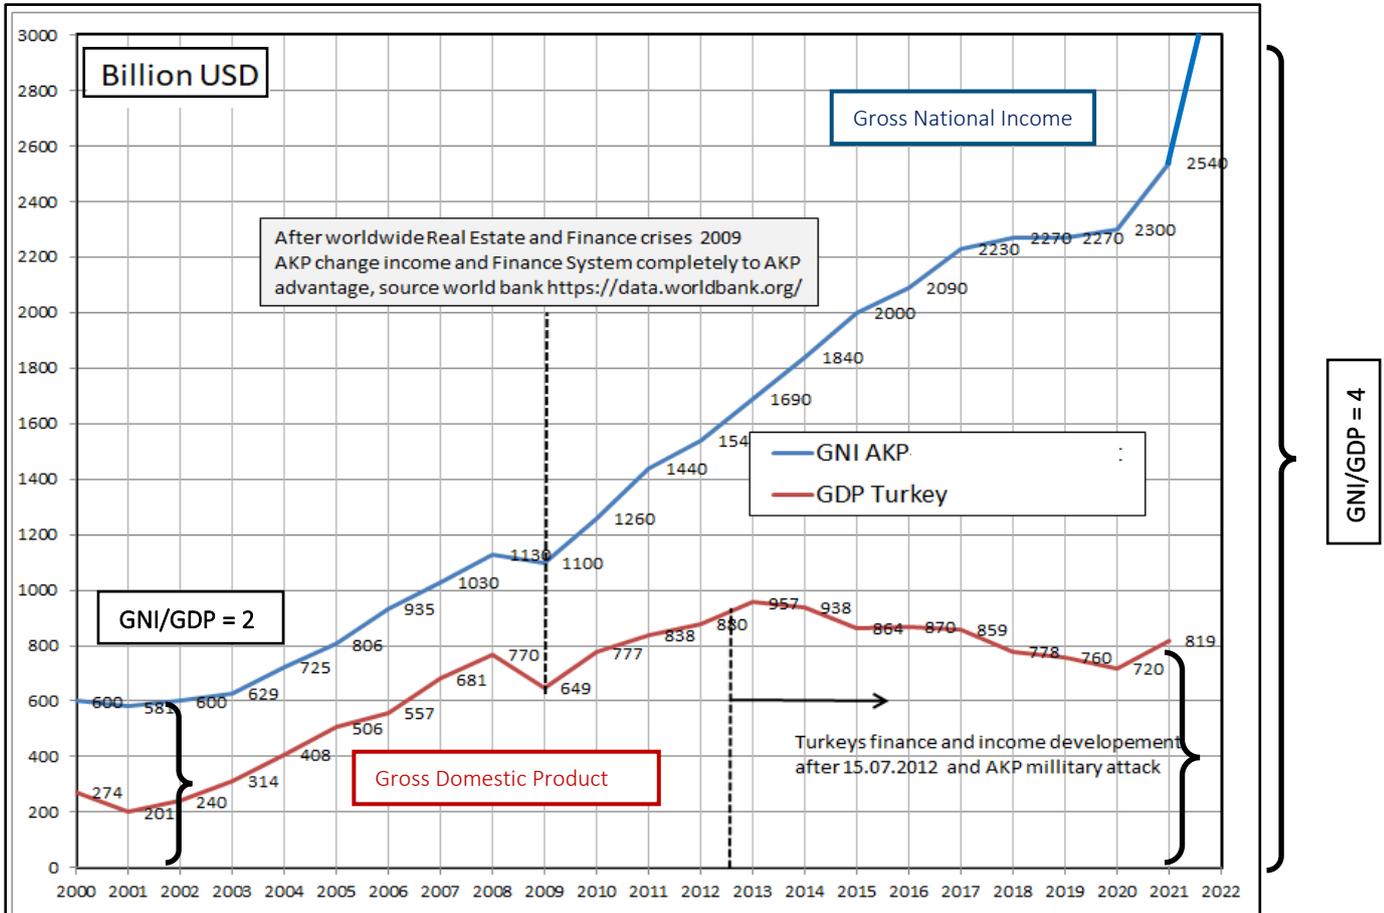

Chart 20: GDP-GNI drift Turkey’s income 2000-2023

Reason for asset transfer from GDP to GNI are Syrian Civil War at 2011 and AKP dictatorship foundation at 15.07.2012. At first step, AK Party quit 3-4 million opponent manager job and fill with AK Party-members increase their income 200%-300%. Occupy and takeover 80%-90% Turkish industry at first the highest profitable sector, quit opposition and manager job and fill with AKP manager and cheap refugees from Syria. Syrian civil war in 2011 was the first step for Turkey's new occupy and ultra-fascists labour politic, cancelled and closed labour unions after Erdogan constitute monarchy with military coup at 15.07.2012.

AKP terror occupy and takeover politic to high profitable sector catapult AKP income to 100% higher income every year, see graphic above. Turkey grows with 31 million employees and 5 million officers but Turkey's asset drift about 2500 billion USD to AKP, with black construction-, vehicle- and gold market ca. 5000 billion USD.

In analogy to Engin Günana business concept to Mercedes-Benz AG premium product offensive. AKP takeover bank- and telecommunication sector, Istanbul Stock market, oil, energy and finance sector, furthermore private healthcare, construction industry, real estate and gold market, private healthcare and vehicle market. AKP politic is Adolf Hitler’s occupy and takeover politic. Hostile takeover through dictatorship force extortion and z-war. Z is the name from Dr. Zetsche former Daimler AG manager, known as Dr. Z responsible for Turkey’s dictatorship concept, not over shares at stock exchange. Turkey’s civil defence was destroyed in few days from dictator Erdogan. Turkish government transfer this method to Germany and try killing every lawyer with German national Agency and BND and German military.

German lawyers get the order, defence only German government. The common Erdogan-Merkel-Daimler AG (EDM) plan was to steal European Union (EU) Private Households Cost to Turkey. To keep Reality-TV Function costs low 30 EUR per household per month, to get from every 224 million EU-Households. Daimler AG, German government and Turkish government use all government capacity to destroy the professional career because of very cheap private household costs. A national government war stage and studio cities began to destroy Dipl.-Engin Günana professional career.

From top founder and manager with foundation Artificial Intelligence, Internet, Google, iPhone GSM, Wi-Fi and best-case manager in co-chairman function at DaimlerChrysler AG and Daimler AG during 2000-2012, with the best earning of history substantial about 10 billion EUR per year and 50 billion EUR during 2012-2016 to worker level. Against the agreement between Engin Günana and Board of Member to get the earning about 50 billion EUR during 2012-2016, Daimler AG quit Engin Günana job at 01/2016, steal transfer 50 billion EUR with Dr. Dieter Zetsche, Erdogan, Melike Günana (in divorce), Kaya Çilingiroğlu, Oğuz Cetin to Turkey, foundation Turkish Wealth Fund and publish Melike Günana as Daimler AG co-chairman and responsible for Daimler AG big business success during 2000-2012.

Pure nonsense, liar politic from Erdogan, Merkel and Dr. Zetsche. Dr. Zetsche, Erdogan and Merkel didn't want lost their face and a gift for Melike Çorba for her terrorism activity at 11.09.2001 and 15.07.2012, at Turkey army coup. Dr. Zetsche chairman contract didn't shift in 2019. The terrorism and agent activity from Melike Çorba (Günana divorced 09/2013 and official at 21.11.2017, court Böblingen) activity was determined at 2023 from me, Engin Günana.

After Dictator Erdogan's army attack to Turkish democracy, 3 million opponent leaderships lost their jobs in private sector and government, especially judges. Erdogan fill empty places with AKP terrorists and steal with fake court decisions opposition money and asset and kill them, put in prison and make them sick and let them pay for Turkish healthcare system.

Turkey transfers this crime concept to Germany, support Germany, change laws and conditions, prevent defence over justice and bring me to bankruptcy over 3 years steal payments from German government unemployment insurance, social-security-system and healthcare-system. Use force and extortion and put me with liar claims and false court decisions to psychological prison over 3 months, the same terror to opposition politicians in Turkey.

Daimler AG Management, President Erdogan and Chancellor Merkel steal European Union private household TV-fess payments to Engin Günana and begin to destroy my professional career as founder of Internet, Google,

UNIX, iPhone GSM and Wi-Fi during 1984-2000 and co-chairman at Daimler AG during 2000-2012, because of less EU-TV Cost payments per household about 30 EUR per month

Erdogan and AKP steal at 01/2016, earnings about 50 billion EUR during 2012-2016, one of the best profits in Daimler AG history, since Daimler AG founded and transfer secretly to Turkey. Founded Turkish Wealth Fund

TWF: <https://www.tvf.com.tr>, Annual report from 2017 in Turkish speech published with a report 160 billion TL assets (50 billion EUR with EUR/TL (€/£) parity =3.2)

European Union (EU) paid TV-Cost to Engin Günana from 224 million European Union households for Reality-TV Household-Function and Get-Response Management-Function about 967 billion EUR during 2012-2023 but Turkish government steal the payments to Engin Günana.

Instead of paying Engin Günana TV-Cost from 224 million EU households Reality-TV Household-Function and Get-Response Management-Function services, Turkish and German national government steal the payments and spread to AKP at State and Economy, AKP-Party-Members, Turkish Media-Groups, Turkish banks, private sector, construction-industry and car-industry and use as finance source for import goods. Premium passenger cars increase from 10 million to 25 million during 2012-2021, most AKP-members own a premium car about 100000 USD inclusive tax. 11 million AKP-Party members get private pension and payments and didn't work.

Engin Günana as the owner of Reality-TV Household-Function and Get-Response Management-Function and economy coach and trainer didn't get any cent. European Union was to finance Islamic Terror Networks in fight against the Anti-Hitler Coalition, the Veto Power of UN: USA, Great Britain, Russia and China. Furthermore, against BRISC (Brasilia, Russia, India, and China)

Stop Pension expenditures:

From emigrant's academics: Target pension with 67 years. Quit job with 54, kill systematic and slow with biological, chemical and radioactive medical weapons. Cut Life expectancy to ca. 10 years, Mehmet Bostancioğlu die during his divorce process because of Kidney failure and cancers.

Target pension about 3200 EUR per month begins with 67 years, 20 years' reference period.

Social-system payment without healthcare costs ca. 900 EUR

Sum of regularly pension for 20 years: 3200 EUR x 12 (month) x 20 (years) = 768000 EUR

Expenditure social payments 900 EUR x 12 (month) x 10 (years) = 75600 EUR

Death after 10 years, difference 768000 EUR - 75600 EUR = 700000 EUR = 0,7 million EUR

Number of academics in 1-household: 44 million x 0,19 x 0,26 x 0,40 = 870000

Saving in sum: 0,7 million EUR x 0,87 million = ca. 600 billion EUR

Savings: 600 billion EUR + 400 billion EUR = 1000 billion EUR

German and Turkish government kill foreign academics in long term with endurance load and fatigue death derived from Daimler AG endurance test for powertrain, make them sick and hold sick in social-system to save government expenditures in social-system, unemployment-insurance and pension-system. Reduce pension from ca. 3200 EUR/month to 800 EUR/month, bankruptcy and contracting their life and send back to their countries. A bankruptcy, chancer and killing concept derived from Dipl.-Ing. E. Günana as pilot project.

Mehmet Bostancıoğlu and Bayram Çiftci die because of chancer.

Emin Dağtekin die nearly. Turkey and Germany grow over dead and bankruptcy from Turkish academics. Berlin and Ankara destroy kill, destroy premium academics and citizens. Turkey-Germany-Alliance want make max. Profit in premium segment with premium foreign 'academics', though systematic and successive destroying their life, make them chancer and sick and hold in this position with radioactivity and chemicals. Use a further development endurance test system from Daimler AG to attack regularly with loads (radioactivity, chemicals, virus and bacteria, to constrain their live and kill them with a long-term sickness load.

Mercedes-Benz - Turkish AKP Government-Cooperation with Dictator and Terrorism Force. Development terrorist programs with system competence from Daimler AG at Oasis-Centre Stuttgart-Feuerbach. Former Turkish National Intelligence Agency chief Hakan Fidan, former economy minister Mustafa Varank, Engineering service employees, President Erdogan first economy advisor Bülent Yiğit, former Daimler AG supervisor Klaus Mangold, Mercedes-Benz Car Group Board of Management.

President Erdogan Turkish Government and AKP-Management are cooperation partners of Terrorist Technology foundation and development centre Stuttgart-Feuerbach Germany. The means determine the end. Former Daimler AG manager Wolfgang Bernhard Terrorism Technology illustration to State and Industry began with Turkish AK-Party foundation at 14.08.2001 and destroying US-Government Finance-System and Financial-Centre at Twin-Tower after 3 weeks at 11.09.2001. German and Turkish army, Healthcare-System, Hotel-Branch, Insurance and Pension-System cooperate in same areal, see figure 1. They concentrate their Terror competence at the same areal.

In analogy Turkey financial recycling concept for Premium Turkish citizens and academics, AKP worker and AK-Party members are test Engineers with burglary and regularly poison loads and academics are test-mediums, derivative from Daimler AG Testing Program and division for Powertrain. Turkish financial premium academics from European Union were use as financial source for AKP-Government and Agra-industry in alliance with German government and industry.

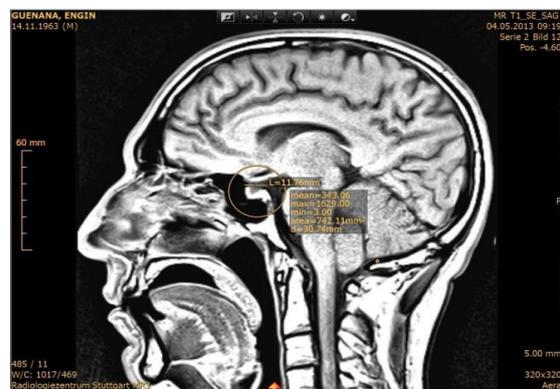

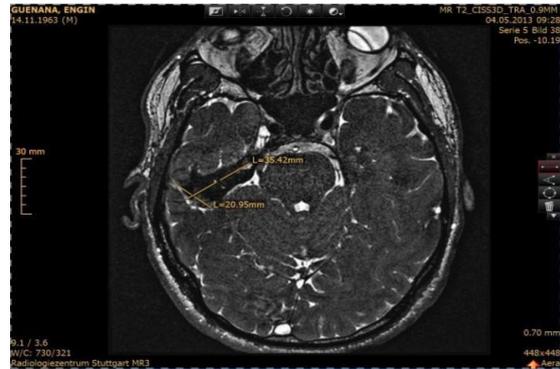

Macro-Economic values and growing indicators aren't change many years since many years, but Turkish currency lost 5 times against Euro and Dollar since 2015. Turkish central bank had average ca. 100 billion USD every year. If the government hide ca. 423 billion EUR (2020) EUR (423 billion EUR + 50 billion EUR) and use only foreign currency (USD) from Turkish central bank $5 \times 100 \text{ billion USD} = 500 \text{ billion USD}$, print money and pay with Turkish currency, this is a good validation of Turkish currency deficit against currency EUR and USD with factor 4-5 since 2016. AKP spread ca. 550 billion EUR in black to the market (construction area, banks, gold and in physical garages and depots. After an earthquake at Syria borderline emergency helper, find 2 billion USD under a destroying building.

This solution fit to the money market politic of Turkish government to international partners to trade their export goods with Turkish currency TL. Turkish AKP government hide income about 473 billion EUR for themselves, make political agreement with international partners and trade with local currency, Turkish money market grow 5 times. President Erdogan stole 473 billion EUR (2020) EU TV-Cost payments and give me 250 EUR/month pension.

In addition, we see the high technology equipment with telephone, video, interactive and automatically get response technology in my head, which was installed secretly with government order without my knowledge but with two targets. To get answers for economic, political and society problems and questions which arrive daily from millions, if users 24 hours per day. These technologies were used.
