Merkel and Erdogan breach the contract pay to Turkish government

The image is a complex collage. At the top left is the NATO logo. Next to it is a banner for the 'AKP Turkey VILNIUS SUMMIT | SOMMET' held on 11-12 VII 2023 in Green Germany, featuring a geometric tree logo. To the right is a glowing brain diagram. Below these is a map of Europe with arrows pointing from a central globe icon to various countries: Ireland, United Kingdom, The Netherlands, Belgium, France, Portugal, Spain, Italy, Austria, Switzerland, Slovenia, Croatia, Hungary, Czech Republic, Slovakia, Poland, Lithuania, Latvia, Estonia, Finland, Norway, Sweden, Denmark, Germany, Romania, Bulgaria, Greece, Turkey, Albania, Macedonia, Serbia, Bosnia and Herzegovina, Moldova, Ukraine, Belarus, and Russia. In the bottom right corner, there is a banner that says 'Heil Hitler' above two photographs: one of Recep Tayyip Erdoğan waving and another of Adolf Hitler.

Germany and Turkey changed encryption Strategy

Decoding of German encryption codes during II world war, was the reason of changing encryption method with signs (arabic, greek, islam, colour, symbols, architecture, street names, building names, place names, written and speech. Military use randomly neural network sentence formation and coupling method for encryption. Military AKP and Terror groups hide target and strategy in mixed coupled names, words, sentences and symbolic with different content, therefore it is very important to find the secret information between the word, phrase and sentences.

Germany Turkey steal 1984 IT Technology and use as Encryption methods

Encryption strategy based on AI, sentence were destruction in bar, traic3 quad4 elements and coupled elements with mathematic operations and algorithms. We developed this for artificial intelligence and artificial brain, scientifics determine and describe the function of our brain with neural network structure.
