

The Germany-Turkey Alliance Power

History and Milestones

1939-1945

Second world-war Germany attack France and Russia but lost against USA and Great Britain. Turkey and Germany was alliance partner during second world-war 1936-1945.

Daimler AG Turkey working condition in Turkey with 45 hours per week, remind to second world-war end at 1945. European Union monthly TV-Fees payment to Turkey, 3,9 Billion EUR as a reminder to the beginning of second world war at 1939

1984-1994 University Stuttgart and Foundation

Under direction from Engin Günana Artificial Intelligence one of the most important foundation after FEM-Method-Analysis from Prof. Prof. Prof. John Agyris at Static and Dynamic Institute for Industrial application at faculty Aerospace-Technology at University-Stuttgart.

1984-1986 Artificial Intelligence and first to linguistic-Institute University Stuttgart

Installation Artificial Intelligence to Linguistic-Institute with support from Mathematic-Institute, Informatic-Institute, Aerospace-Technology-Institute and Construction-Institute under direction from Engin Günana with students Gülay Ortak, Nergiz and Sisters (Turkish), Christian, Christian (German), Dan, Nicolaus (Romania, French), Susanne (Germany), Cihan Batman, Ali Tekeşin (Turkish), foundation Artificial Intelligence a possibility with extensive consequences. Transformation text to speech, discretization languages at first in German than transfer in other languages at linguistic-Institute at Stuttgart-University. Professors from Aerospace-Technology-Institute, Mathematic-Institute and Informatic-Institute was reserved, because they didn't understand the benefits even though i explain a voice based functionality of application, especially navigation and other speech steering tools in passenger car industry.

The Digital Revolution FEM and AI

Data, Data structures, high speed vector type calculation, cray, programs, subroutines in Algol, Basic, Fortran, Pascal, C, C+, C++, Cray 2 application at University Stuttgart, FEM Formulation Modelling and Method transformation to Electric- and Magnetic Field, Flow-Mechanic and Dynamic at Aerospace Technology Faculty.

During Informatic-Institute try translate text to speech, we want translate speech to text as input-signal and discuss with a professional intelligent program, who are able give answers to requests from user. This is the kernel of Artificial Intelligence an intelligent dialog with computer

Discretization and modelling languages to Finite-Elements build Element-Libraries and Translation sentences at first in German-English, English-German. AI with excellent algorithm, who are able connect sentences with sentence-elements from language element-library, which consider orthography with support from student friends at Stuttgart University.

FORTTRAN Libraries and INTERNET

FORTRA Routines and the importance of Libraries. FORTRAN-Routines and Libraries Program Collection since 1960. Every Institute from Stuttgart University had different subroutines. My Idea was to connect institute computers, to reach the every Fortran Libraries with Subroutines in all Institutes

at Stuttgart University and Germany, was interest in to all reachable free Fortran Libraries from other countries. The idea of worldwide computer network and Internet was born and we define Internet address with <https://www> at meeting at Stuttgart University with Student group and give to Prof. Messerschmid Faculty Aerospace-Technology Institute IRS (Institute für Raumfahrt Systeme) Stuttgart University. During Daimler AG graduation at 1992, i forced worldwide computer connectivity and Internet with support from EDV-Team Dr. Eckert at Dr. Kern and Prof. Dr.-Ing. Bharat Balasubramanian (India) Daimler AG. We developed UNIX; define Hexadecimal-code for text documents and data header in ASCII-Code.

1992 From complex AI and Element-Libraries 1984 to BND MIT Language Encryption

During we developed Artificial Intelligence, build unit sentence elements, sort and collect in specific element libraries and developed most complex part algorithms to connect automatic elements to sentences with Finite-Element-Method element generator and modify with orthography rules, we determine that National Intelligence Agencies use easy alphanumeric encryption methods.

Older encryption methods use realized alphanumeric combination or similarity illustration after Artificial Intelligence Foundation with the beginning of 1984 national government use word

From Artificial Intelligence to Politic Terror Attack and Dependencies

German and Turkish National Agency use high-school crypto and sign because of their less educated army and terror-networks. AKP is a foundation from secret Hitler Organization at 14.08.2001

Berlin and Ankara use since 1984 Artificial Intelligence encryption Methods for simplicity and triviality Elements.

Germany start at first with a Turkey AKP and Terror-Network Organization to shrink US Government force with the Terror attack at 11.09.2001. I am convinced especially for this task and target Daimler AG fusion with Chrysler Inc. at 1998 with the target to destroy US Government force status symbol World Trade Center. 3 years are enough to plan bribe and preparation the building. Target Adolf Hitler's revenge from 1945.

With this target, we should analyses the cold blood behavior from politician leaderships and terrorists. US Government and Great Britain solve Germanys MORSE encryption and prevent Germany dangerous submarines

Germany start another way of war with secret genetic manipulated agriculture and seeds, different virus types in and infiltrate with terror networks AKP Turkish military Anti-Hitler-Coalition and BRISC countries. To push European Union to top European Union begin to settle at this target and make with Turkey agreement at 2011/2012. The result was AKP and Turkey military attack at 15.07.2012 with the meaning 15 to remind EG 15 and my foundation Hexadecimal-System, 2000 kill unknowledge AKP members to constitution a dictatorship with government regulation Unix, my foundation at 1992-1994 to connect with Internet <https://www> the world manage date with Unix and data rights to owner/group/all.

Turkish government use exactly this regulation to steal asset, money, and life from all. All means exclusive President Erdogan President Erdogan Team AKP Organization (The owner and admin) Furthermore AK Party Member (group).

07.05.1998 Merger Daimler AG and Chrysler Inc. to get influence in USA and preparing USA financial future death with the biggest damage to WTC World-Trade-Center at Twin-Tower. Prof Jürgen Schrempp Ex DaimlerChrysler AG Chairman honor the terror attack with his name in cooperation with AK-Party and Islam Terror-Networks.

Adolf Hitler 3.0

14.08.2001 AKP Foundation and Terror attack 11.09.2001 to WTC to prevent USA growing among other things with my foundation Internet, Artificial Intelligence, Google (translation, search engine navigation), iPhone and iPad GSM Wi-Fi and digital data streaming with digital satellite technology ASTRA. The merger of Adolf Hitler and Osama Bin Laden.

Adolf Hitler 4.0

15.07.2012 with Erdogan and Kılıçdaroğlu and AKP-CHP, constituted dictatorship with support from Germany, transform regulation and rules to Adolf Hitler and National Socialism politic decisions. Constitution condition of two countries Germany and Turkey. Erdogan and Kılıçdaroğlu AKP and CHP controlled and regulated justice, finance, healthcare, security, army and police, make decision with EU for Private Household education with Reality-TV-Function but steal secret digital manager competence and expert knowledge with Get-Response Management Function. The illegal agreement with EU to use a high-end educated undercover agent (best case) to prevent government expenditures and increase profit through misusing government institutions justice, finance, security, healthcare and steal parallel secret and digital with Get-Response Management Function intellectual property manager competence and expert knowledge.

The same concept to Germany and government. Germany save (earn) over 1000 Billion EUR expenditures and earn Turkey get over 1000 Billion EUR EU-TV fees payments from EU with national government program from two countries during private economy use free Get-Response Function.

Adolf Hitler 5.0

Started at 19.01.2016. (20.01.1942 Wannsee Conference) Make German- and Turkish Government Fit for Future with founder and co-chairman at DaimlerChrysler AG and Daimler AG during 2000-2012 for state and economy, two operations, through two functions, two countries and two programs, save government expenditures and make billions at economy. Transfer 50 Billion EUR to Turkey share with Germany generate weapons with agriculture chemicals and virus and decrease the power countries USA, Russia, China, France and Great Britain. The German Nazi joke Wannsee Conference with symbolic encryption 'when did you see conference'

Adolf Hitler 6.0

Make EU fit for Future with Turkey AKP Germany and Daimler AG a best-case manager and expert as best a prototype to fix, evaluate and approximate government and economy with products, process and procedures. Developed system-technology, products, process, procedures, secret weapons, secret attacks, secret infiltrate technologies with BND and MIT and high-tech (x-Ray detectors) manipulated foods and agriculture, contaminated water and drinks, poison in foods and drinks. Virus and virus spread technology. Target 11 million deaths (Hitler Wannsee (when did you see) protocol at 20.01.1942 same date of job termination at Daimler AG) in USA, Russia, China, France, Great Britain and BRI(S)C (Brasilia, Russia, India, China) Germany and EU economic and financial enemies. EU Space Shuttle is now AK-Party with 11 million soldier's legionaries and members who act with terror methods

Names Nutation and Political Application

Is President Erdogan and AK-Party foundation at 14.08.2001 a victim or the greatest Terror Organization? After Erdogan's and AKP's massively prevention of IT-Technology foundation since AKP foundation at 14.08.2001, transformation Adolf-Hitler National Socialism Politic to Turkey and AKP-Organization, let his daughters study in USA, even though he is political an Anti-American, hide and reject the greatest foundation of 20 century, i am convinced Erdogan and AKP and Turkey are guilty.

Hand signature from terror attack:

The Turkey and Islam factor 11 at 11.09.2001

Attack to Twin-Tower, to symbol of success, symbol of status quo with finance and education. Turkey's grading scale is from 1-10, eleven means 10 plus, best. Terror attack wasn't attack to one tower but to two Towers. Twin-Tower suggestion Twin-Turbo-Charger. Twin-Turbo-Charger complies to passenger car companies, high technology high power engines.

The automobile sign

Fire and combustion engines steer the world.

The AKP Party-Logo sign

Symbol Fire red orange fire signed with best grading 10 plus with 11 and attack to two towers.

The AKP Islam sign

Attack to pentagon with 5 edges against mosques half circle roof

Jürgen Schrempp sign

Jürgen Schrempp - Jüngen Schramm - Jüngen Schrumpf born at 15.09.1944, a furthermore reason and sign of date 15.07.2012 of Erdogan Kılıçdaroğlu AKP-CHP attack to Turkish democracy. Jüngen Shrink the green figure Shrink in cinema, the symbol to decrease

Germany and Turkey alliance generate strategies with 11 million AK-Party-members in Turkey and Terror-Networks (Taliban, Al-Qaida, for international tasks

and foundation System Company who use terror methods and includes Terrorists in their portfolio.

infrastructure at Germany with System competence from Daimler AG and Debbis GmbH, foundation and development system process and procedure to increase citizens group in third part of Unix data management are material to use, like Adolf Hitler judges, who was killed and Adolf Hitler use judges death as source material for soap and leader

their skin

as a secret Hitler extortion politic in which evidences are very difficult

Adolf Hitler 4.0

After 50 Billion flow from Germany and Daimler AG from Dr. Dieter Zetsche known as Dr. Z in America and undercover with Dr. ZZ or Dr. SS. The sign of Adolf Hitler and Germany National Socialism. During I manage DaimlerChrysler AG and Daimler AG as business manager and chief engineer.
